NUMBER 49

## NEW BLOOD IN TENNIS TOURNAMENT

Few Of Last Year's Winners In Race  
This Week For Interior Cham-  
pionship Honours

With the exception of a shower of short duration late on Tuesday afternoon, the finest kind of weather has favoured the ninth annual Interior Lawn Tennis Championships Tournament, in progress all this week on the courts of the Kelowna Lawn Tennis Club. Last year, the tournament was held under torrid conditions of blazing sunshine, which proved somewhat trying to players from the Coast, but this week the heat has been much mitigated by cooling breezes and the presence of fleecy clouds in the summer sky. The famous red clay courts, which have a reputation throughout the province, are in splendid condition and are the occasion of much favourable comment.

Entries this year, while not quite so numerous as last year and lacking the international flavour, are much more representative of the province. A marked feature is that few of last year's winners will be in the race for honours this year. New blood is much in evidence, and it is an open question whether, even if the champs of former years were present to do battle, they would be able to survive the fine driving and generalship that is being shown by some of the first time visitors. Judging from the preliminary rounds, the brand of tennis is quite up to standard, and before the finals are reached some rare battles should ensue.

Following the preliminary rounds on Monday, the tournament began to assume more interesting phases, as Tuesday's play, in which several somewhat unexpected upsets took place. Perhaps the most outstanding was that executed by MacDougall, of Nelson, and Mrs. Watson, of Vernon, who eliminated Yoshi, of Vancouver, and Mrs. Bull, of Kelowna, in the Mixed Doubles. Yoshi is a serious contender for the Singles title, but his play in the Junior Boys division. By steady play and heady combination and understanding the Nelson-Vernon pair won 6-4, 6-2. Another worthwhile exhibition was the meeting of MacDougall and H. Aitken in the second round of the Juniors. This was a real battle, the set going the Interior for many years, while there is a strong contingent of Coast players in the men's events, including such stars as George Yoshi, Jack Brown and Dunc Williams, all of whom are playing brilliant tennis.

Results up to Tuesday evening are as follows, so far as obtained:

Men's Singles

D. Williams, Vancouver, beat C. W. Walker, Kelowna, 6-1, 6-1; C. MacDougall, Nelson, bye; J. Clark, Vernon, beat C. St. D. Adams, Kelowna, 6-4, 3-6, 6-4; A. D. Carr-Hilton, Vernon, beat R. H. Stubbs, Kelowna, 6-0, 6-4; T. Malahoff, Nelson, beat V. D. Lewis, Kelowna, 6-4, 6-4; A. Greig, Vancouver, bye; R. Ford, Mission, beat H. V. Craig, Kelowna, 6-3, 8-6; A. E. Hill, Kelowna, beat L. Simpson, Nelson, 6-2, 6-2; J. Brown, Vancouver, beat D. K. MacLister, Rossland, 6-2, 6-0; T. Romano, Nelson, beat Capt. Bull, Kelowna, 6-4, 8-6, 6-4; W. Metcalfe, Kelowna, beat B. Clark, Nelson, 6-0, 7-5; D. Kerr, Kelowna, bye.

T. Romano beat D. Greig, Vancouver, 6-2, 7-5; H. Aitken, Kelowna, beat G. Hudson, Vancouver, 6-1, 6-4; G. Yoshi, Vancouver, beat M. Meikle, Kelowna, 6-1, 6-0.

Ladies' Singles

Mrs. Haggart, Vancouver, bye; Miss M. Taylor, Kelowna, beat Miss B. MacLeod, Vancouver, 6-2, 6-4; Mrs. Muir, Vancouver, beat Miss Tailyour, Kelowna, 7-5, 6-4; Miss J. Pease, Kelowna, beat Mrs. Carr-Hilton, Vernon, 6-3, 6-1; Mrs. Ross, Vancouver, bye; Mrs. Mangin, Kelowna, bye; Miss O'Shea, Vancouver, beat Mrs. Ford, Mission, 6-1, 6-3.

Mrs. Ross beat Mrs. Mangin, 7-5, 6-2; Mrs. Haggart beat Miss M. Taylor, 6-0, 6-2.

Men's Doubles

Brown and Williams, Vancouver, beat Adams and Aitken, Kelowna, 6-2, 6-1; Metcalfe and Stubbs, Kelowna, beat J. Clark and R. Greig, Vernon and Vancouver, 6-0, 6-4; Malahoff and T. Romano, Nelson, beat Bull and Holliday, Kelowna, 7-5, 2-6, 6-3; A. E. Hill and Mangin, Kelowna, beat Lewis and Walker, Kelowna, 6-1, 6-4; Yoshi and A. Greig, Vancouver, beat Aitken and Pridham, Kelowna, 6-1, 6-1.

Ladies' Doubles

Mrs. Muir and Mrs. Ross, Vancouver, beat Mrs. Bull and Mrs. Stubbs, Kelowna, 6-0, 6-3; Mrs. Tailyour and Miss J. Pease, Kelowna, beat Mrs. Gardner and Mrs. Mangin, Kelowna, 6-1, 6-2.

## CANADA LOSES MACKINNON CUP

Canadians Finish Second In Competition For Prince Of Wales Prize

BISLEY CAMP, England, July 16.—Canada's Bisley team lost the Mackinnon Cup to England today, finishing second. The scores were: England, 1,056; Canada, 1,033; Scotland, 1,032.

With a score of 68 out of a possible 70, Squadron Leader C. S. Richardson, of South London, won the Prince of Wales prize of \$500. Richardson finished two points ahead of the leading Canadians, who were Quartermaster Sergeant Moore, of St. John, N.B., Sergeant Ward, of Sunnybrae, N.B., and Major Richardson, of Victoria, all with 66.

## KELOWNA GIRLS WIN FROM VANCOUVER

Peppy Crew From Orchard City  
Triumphs In Closely Contested  
Race At N.P.A.A.O. Regatta

Three cheers for Kelowna's rowing girls, Ella Cameron, Audrey Hughes, Brenda Carruthers and Claire Roberts (stroke), who brought themselves and Kelowna high distinction and glory by winning a most thrilling race at Burnaby Lake, on Saturday, in the N.P.A.A.O. Regatta. It was such a race as is written about in fiction but is rarely seen in reality. For most of the course the boats were practically on level terms, the even nature of the struggle rousing the crowd to wild enthusiasm. Then, just at the finish, the Kelowna girls, summoning every ounce of their energy, made a most gallant spurt and pulled ahead for a very popular victory, winning by a matter of three or four feet, while the spectators roared approval.

With better luck, the boys might also have gained the laurels of victory to carry home, but misfortune dogged them both on Friday and Saturday. In the Junior race on Friday the shells were badly crowded together, there being six boats abreast on the narrow course. The Kelowna crew got away to a poor start and, with their oars almost touching those of the next boat, they were crowded out. In an effort to regain their position and pass the Brentwood boat, they hit a buoy and badly bent an outrigger, which necessitated a re-start that left them hopelessly behind.

In the Senior race on Saturday, in which there were five entries, the Kelowna boat made a great start. The crew were rowing true to form, holding a good lead, and were just about to start the final spurt with every chance of victory, when the heart of the stroke, Bert Twiss, suddenly gave out and he collapsed. It was a tough break, both for the stroke and his mates. However, these things will happen and must be borne with a smile. Kelowna knows how to lose as well as win, and the boys will have their opportunity for revenge at Kelowna's Silver Jubilee Regatta next month, with plenty of room for a fight.

The sport reporter of the Victoria Colonist, in describing the unfortunate mishaps, says: "These lads from Kelowna were rowing in grand form and showed a decided improvement over yesterday's race in the junior fours. But in rowing, as is so often seen in the ring, things happen quickly, and they certainly did at this point in the race today. Bill Twiss, rowing stroke for Kelowna, who up to this point had been hitting a fast pace, collapsed in his shell. Say, this game laid went down as though he had been hit by Jack Dempsey, and when the writer last saw him from the press launch he was still down, and his crew were completely out of the race, they, of course, having stopped rowing."

## BRITISH SENIOR GOLFERS REGAIN CUP FROM U.S.

SWINTRY FOREST, England, July 16.—Britain's senior golfers regained the Lord Derby Cup today from the United States in their annual encounter with American senior golfers by winning eleven matches to five.

## MACDONALD'S VISIT TO BERLIN POSTPONED

LONDON, July 16.—Premier MacDonald informed the House of Commons today of the postponement of his visit to and Rt. Hon. Arthur Henderson, Secretary of State for Foreign Affairs, had planned to pay to Berlin this week, and of the decision of Chancellor Brüning of Germany to proceed to Paris.

Edward Marjoribanks, Conservative, asked if Mr. MacDonald would "give an assurance that the Government will have no party to the imposition of political conditions, thus exploiting the financial crisis."

"I shall take note of that question," was the Premier's reply.

## POTATOES DUMPED FOR LACK OF MARKET

NEW WESTMINSTER, July 16.—One hundred and fifty tons of last year's potatoes, in good condition and quite fit for human consumption, have been carted to the civic dump from the premises of the Pacific Coast Terminal Company, owing to lack of markets.

## GET READY FOR THE GLORIFIED BARBECUE

Delicious Sandwiches From Steer  
Roasted Whole Only One Feature  
Of Varied Entertainment

Just one week from today, on Thursday next, July 23rd, the Kelowna City Park will furnish the setting for one of the most unique events in the history of the district, for on that date the long anticipated "Gyro Glorified Barbecue" will become a reality.

Interest to a great extent naturally will centre on the barbecue itself, as it will be new to a large number of residents of the community. When it is borne in mind the process by which a steer, one that for several months past has lived a life of luxury in preparation for the day when, after being roasted whole for approximately twenty hours over a fire of hardwood logs, it will become the centre of tempting, juicy sandwiches, prepared as only barbecue chefs can prepare them and served with other delicious accompaniments, the urgings of the inner man—and woman, for that matter—will be irresistible, and when the inner man urges who is not interested?

Of equal interest, however, will be the bathing beauty contest. This will be a competition between beauties who will not be bathing, and probably will be the first time such a stunning galaxy of feminine charm shall have been assembled in Kelowna. Entries are increasing in number, coming from as far north as Vernon and as far south as Penticton in addition to an array of Kelowna pulchritude. Preliminary judging of the mermaids will take place in the afternoon, with the final early in the evening.

The kiddies have not been overlooked by the Gyros, and a feature of the afternoon will be children's sports. Bicycle races, foot races and a number of novelty competitions promise young Kelowna plenty of fun and enjoyment. Then there will be the treasure hunt, a real treasure hunt for real money, starting from the Aquatic Pavilion at four o'clock.

A big Midway will operate both afternoon and evening and will feature some of the more popular games of skill, together with a number of new ones.

To bring to a fitting climax this big day of pleasure, a huge bonfire will be kindled on the lake shore, while the Aquatic Pavilion will be the scene of a peppy, happy dance, and at 10:30 p.m. the drawing for the fifty dollar prize will be held. Special music is being rehearsed for the dance, and leaders indeed will be the feet that can resist it. In supporting the Gyro Club in this, their latest endeavour, the public really will contribute to their own future pleasure and recreation as the entire proceeds will be used for extension of the present lakeshore property holding of the Gyros, which, after a short space of time, will be turned into a beautiful bathing beach on Okanagan Lake, for free use by the public.

Get your tickets early from any member of the Gyro Club and remember the date, Thursday next, July 23rd, in the City Park, beginning at 3 p.m.

## ABBOTSFORD WANTS TO DRINK BEER

ABBOTSFORD, B.C., July 16.—By a majority of forty votes, this town yesterday favoured the establishment of a public house. The vote was 304 for and 264 against.

## SHIPPERS HOLD BUSINESS SESSION

Many Matters Dealt With Of Importance To Horticultural Industry In Okanagan

(Contributed)  
A meeting of the Shippers' Council was held at Kelowna on Friday, July 10th, at which were present practically all the shippers in the Valley. Mr. R. W. MacDonald presided, with Mr. J. E. Montague as Secretary.

Bureau Of Information  
A discussion took place as to the proposed Bureau of Information and the progress being made by the Government as to the formation of this Bureau. The committee handling this advised that Mr. Duncan had been fully instructed as to the duties and details of this Bureau as the shippers required, and that he was working on this at Victoria now, hoping to have it established in the Valley by the 15th, if all goes well.

Mr. Chambers, President of the Growers and Shippers Federation, advised that a general meeting of that organization had been called for July 21st for the purpose of reconstituting its By-Laws and changing its name to take the place of the Okanagan Shippers' Council. It was felt that, rather than form a new organization, it would be better to use the one that was already in existence. Committees were then appointed to change the By-Laws of the Federation, also to handle price changes between regular weekly meetings of the Shippers' Council and to handle any other matters that might come up and demand immediate action.

## SEVENTH DAY ADVENTIST PROVINCIAL CONVENTION

Proceedings Will Commence In City Park Tonight

All is in readiness for the formal opening of the Seventh Day Adventist convention tonight, in the big tent in the City Park, on the Abbott Street frontage, at 8 p.m. It is expected that Mayor Rattenbury will attend, if possible, to welcome the delegates, most of whom are due to arrive today. Local members of the denomination have been attending a series of interesting pre-convention addresses, given during the past week in the large tent by Pastor N. C. Erntson, of Victoria, who will be remembered as having lectured here for a week or two after the close of the convention last year.

All the sessions will be open to the public, but the night meetings, at which addresses will be delivered on subjects of general interest, will have a wider appeal, as a certain amount of routine business must be transacted at the other sittings, such as consideration of reports and election of officers.

The present officers are: President, H. A. Lukens, Vancouver; Treasurer, H. A. Shepherd, Vancouver; Field Secretary, K. Astleford, Vancouver; General Secretary, W. J. Shaffer, Chilliwack.

Amongst leaders in the denomination who will attend the convention are: S. A. Ruskier, of Alberta; Prof. W. W. Prescott, of Union College; W. H. Hackman, of Washington, D.C., and Pastor C. H. Ochs, of New York. The attendance is expected to number between two and three hundred, and the proceedings will last until Tuesday next.

In previous years it was the practice to provide fifty or sixty tents as living quarters for delegates, but this year, in addition to two large marquees for meetings, only about half a dozen small tents have been pitched, as the leaders desire that their people shall patronize, so far as lies within their means, the local hotels and rooming-houses.

## CITY BAND CHEERS SATURDAY SHOPPERS

Series Of "Saturday Night Business Serenades" Inaugurated

The City Band has struck a brilliant idea for cheering up these depressing times by means of what Bandmaster Kirk terms "Saturday night business serenades." While the city is usually crowded every Saturday night, many of the faces on the streets wear an expression of gloom that becomes infectious and makes people who really have money believe that they cannot afford to buy things that they are normally entitled to have. The Band proposed to try the effect of music on restoring confidence and optimism, with consequent favourable repercussion upon business—and it worked! They played a number of cheerful pieces on the main street last Saturday night, and the crowd bucked up perceptibly. The music acted as a tonic, chased away that liverish feeling of nothing being any good and made the tight-wads open up their purses.

The Band wants to be of real service to the community, and if it can restore a general spirit of cheerfulness by its strains, it will be doing something really of material value. The reception accorded the first of the Saturday night concerts encourages the Band to continue during the summer, besides giving concerts in the Park, the next of which will be on Wednesday, July 22nd. Weather permitting, the Band also will play at the grounds of the Kelowna Hospital on Sunday, July 26th, at 3:30 p.m.

## MISSING CENSUS ENUMERATOR FOUND

VERNON, July 16.—Archie McGregor, census enumerator in the BX district, near Vernon, who had been missing for several days, was found by searchers yesterday in a manger in his own barn in the Kedeston district. He was weak through hunger and, after days of wandering aimlessly through the bush, he was in a state of collapse when discovered. He said he had fallen from a horse several days previously and his mind became a blank. He is improving rapidly.

## PRINCESS ELIZABETH ACTS THE GREAT LADY

LONDON, July 16.—Princess Elizabeth is still a little girl but can act the great lady. This is the newest story that Londoners are chuckling over.

No longer allowed to wheel out her baby sister, Elizabeth pushes a perambulator with her favourite doll in it. Recently engaged in this "pleasurable activity in the royal gardens," she conducted her little cousin, Hon. Gerald Lascelles, to wheel for her. He refused. "Very well, then, I shall marry you when I grow up," said the little Princess.

## HUNGARIAN FLIERS FORCED DOWN NEAR OBJECTIVE

BUDAPEST, Hungary, July 16.—Captain Endres and Magyar, of the Hungarian Air Force, were forced down today when within twenty miles of their objective near. Neither was injured. They hopped off from Newfoundland yesterday morning. Radio messages to ships during the Atlantic crossing stated that the foggy weather encountered at the start had cleared in mid-ocean.

A crowd of 100,000 excited people awaited the arrival of the aviators here.

## YOUNG LAD DROWNS IN WOODS LAKE

John Sutherland Meets Death Through  
Capsizing Of Small Home-Made Craft

Through a sad drowning accident on Friday morning, John Sutherland, aged sixteen, son of Mr. and Mrs. J. Sutherland, of Winfield district, lost his life in the waters of Woods Lake. The only eye-witness was his companion on a fishing trip, Clarence Hall, aged fourteen, son of Mr. and Mrs. John J. Hall, who was so exhausted when rescued that he could not give a coherent account of the affair for some time.

It seems that the boys went out in a home-made boat or canoe, belonging to the younger lad. The weather was breezy but the wind was not strong enough to render the trip dangerous, even if the little craft seemed to be rather a cranky skiff. Sutherland stood up to cast with his rod and overbalanced, upsetting the boat as he fell. Both boys grasped the hull and hung on, but Sutherland, who could not swim, soon lost his hold and sank. Hall, although very small for his age, made two plucky efforts to hold his friend above the surface but he was not strong enough to save him, Sutherland being a very much bigger and heavier lad. Holding on to the stern of the boat, Hall then propelled it towards shore by kick strokes, but he found this very exhausting and he let go and endeavoured to swim the rest of the way. Fortunately for him, Mr. W. Petrie, of the Lake Shore Inn, had sensed something was wrong and had put out to the rescue in a boat, reaching the lad just in time, as he was almost completely exhausted and semi-conscious, collapsing on reaching shore, so that it was necessary to obtain medical aid.

The drowning was reported promptly to Provincial Constable Butler at Kelowna, who organized a search for the body which, with the aid of a number of volunteers who made repeated dives and grappling, was maintained until late in the evening without result, owing to uncertainty as to the exact part of the lake in which the accident took place. Due to his condition, Hall could give no information to aid the search, but he had recovered by next day and in the afternoon was able to go to the lake and point out the approximate spot where the boat upset. Within a few minutes the rod that the unfortunate boy had been using was found and not long afterwards, about 4 p.m., the body was recovered. Sergeant Bowen, of the Provincial Police, Vernon, aided in the search.

After holding an official enquiry on Monday, Coroner J. F. Burne came to the conclusion that an inquest was unnecessary, death being evidently due to accidental drowning.

The funeral was held on Tuesday from the undertaking parlours of the Kelowna Furniture Company to the Kelowna Cemetery, Rev. A. McMillan, of Rutland, officiating. There was a large attendance of sorrowing friends, especially from the Rutland district, in which the lad lived with his family for several years before moving to the Winfield district.

The sadness of the boy's untimely death is intensified by the fact that he was an only son. Besides his parents, he is survived by three sisters, two resident at home and another, who is married, at Penticton.

## LITTLE CHANGE IN APPLE ESTIMATES

This Year's Crop Likely To Yield  
From Twenty To Twenty-Five  
Per Cent Below 1930

(From the fortnightly report of the Horticultural Branch, Department of Agriculture, Vernon.)

Vernon, July 11, 1931.  
Vancouver Island and Gulf Islands, July 8.

Since the first of the month the weather has turned fine and decidedly warm. High temperature in Victoria yesterday was 86 degrees F., with prospects of higher temperatures today. The soil is still well saturated with moisture as a result of the unprecedented June rainfall, but evaporation of soil moisture is very rapid at present. Strawberry crop is practically over, only a few crates being received. The season has been one of the most unusual ones experienced in years. Prices on prairie shipments will be decidedly low. The June rainfall has resulted in excellent growth of new strawberry plantations, in fact, it has been a serious task to keep the weeds down.

Loganberries should be at the peak during the next few days. There is an excellent crop of fruit being harvested and considerable quantities are moving to the wineries, canneries and jam factories. A surplus is anticipated. Prices will rule low and a proportion of the crop undoubtedly will not be harvested.

Raspberries are about at their peak. The excessive moisture has aided this crop materially. Gooseberries, red currants and black currants are just

(Continued on page 4)

## VALUE OF APPLES FOR DUTY PURPOSES

Figure Set By Department Of Customs  
At Three Cents Per Pound

An Ottawa dispatch, dated July 11th, has appeared in several of the daily papers, announcing incorrectly that "the duty on apples has been set at three cents per pound, effective today." It should have read "the minimum value of imported apples has been set for duty purposes at three cents per pound." Establishment of a minimum value is necessary on account of the anti-dumping regulations.

The present rate of duty is ad valorem, being at the rate of 20 per cent, but not less than three-fifths of a cent per pound, including the weight of the package. This works out to a minimum of thirty cents per box. All apples invoiced at a price lower than \$1.50 therefore become subject to dumping duty.

## B. C. PREMIER ENDORSES CARAVAN

Hon. S. F. Tolmie Hopes That Many  
B. C. People Will Join Okanagan-  
Cariboo Trail Party

Capt. J. M. Walter, Manager of the Okanagan-Cariboo Trail Association, was in town on Monday, making arrangements in advance of the delayed caravan, which is now due to arrive here on Monday next, July 20th, in the course of its progress over the Trail and to the Coast. He attended the meeting of the City Council the same evening to inform the Council of the date of arrival of the caravan, and took the opportunity to say a few words on the work of his Association. He distributed copies of a finely illustrated article upon the Trail, which appeared in the issues of May 31st and June 7th of the Portland Oregonian, as indicating some of the valuable publicity which is being obtained through the efforts of the Association. He stated that the governor of Oregon is to send a special representative to travel with the caravan, while Mrs. Charles Stohl, of Wenatchee, who is an enthusiastic aviatrix, has recently purchased a powerful plane and will accompany the caravan by air. While her speed necessarily will be much faster than that of the caravan, she will time her flights to coincide with the halts made.

Mrs. Stohl is the widow of the former business manager of the Wenatchee Daily World.

For the information of Capt. Walter, the following letter from Premier Tolmie was read by the City Clerk, at the request of Mayor Rattenbury:

"Victoria, July 10, 1931.  
"Mayor Rattenbury,  
Kelowna.

"Dear Mr. Rattenbury,  
"I am advised by Mr. J. M. Walter, Manager of the Okanagan-Cariboo Trail Association, that he has extended an invitation to you to join the forthcoming caravan over the Okanagan-Cariboo Trail.

"Knowing that you personally appreciate the value of these practical expressions of good fellowship between the people of the Pacific Coast States and the people of British Columbia, I am sure you will agree with me that as many British Columbians as possible should accompany this caravan. Personally, I am very much in favour of encouraging organized efforts of this nature. A century of amicable comings and goings has given an object lesson to the world at large, and anything that makes for free intercourse and closer contact, any movement that tends to foster and develop a more intimate understanding, cannot fail to work to our mutual advantage.

"I feel sure that the Canadian members, as well as the American members, of this caravan will enjoy immensely a tour through our Okanagan Valley and the pleasant hospitality of its people, the magnificent spectacle of the Fraser Canyon and the many attractions of our splendid cities of Vancouver and Victoria; besides the opportunity to see what will one day be a highly important section of the projected Alaska-Yukon Highway."

"I am hoping that I shall be able to meet the caravan and extend personal greetings to the members. In the meantime, I am,  
"Yours sincerely,  
"S. F. TOLMIE."

Echoing the sentiments of the Premier, Capt. Walter expressed the hope that as many members of the Council and citizens of Kelowna as possible would join the caravan and proceed with it to the Coast. Assurance had been given along its route of a very hearty welcome.

His office was being flooded with enquiries about the Alaska-Yukon Highway, testifying to the widespread interest that was being taken in the project. Personally, he was much interested in it, as he had been over its route about twenty years ago. He had sent out 14,000 folders about the Trail since June 5th, a portion of them in reply to over six thousand individual enquiries and the remainder to tourist associations, information bureaux, etc. The enquiries ranged from as far east as Vermont.

Taking his leave, Capt. Walter thanked the Council for all past favours and in advance for any that might be extended in future.

His wedding, he said, was off. His girl lost her job.

## ENFORCEMENT OF ELECTRICAL INSPECTION

Council Appoints Assistant Inspector  
For Purpose Of Compliance  
With Regulations

All the members of the City Council were in attendance at the regular session on Monday night, with the exception of Ald. McDonald, who had another engagement and arrived just after adjournment had been taken, when a short meeting was held in committee of the whole.

Following pressure by local electrical contractors maintained for some time and precipitated by evidence of makeshift electrical repairs being the cause of a recent outbreak of fire, the Council in after thorough discussion of the matter in committee decided to appoint Mr. George Matthews as assistant to the City Superintendent and Inspector under the provisions of the Electric Regulation By-Law. It was also decided to publish advertisements calling the attention of the public to the necessity of complying with the requirements as to the procuring of permits for all electrical and plumbing installations.

By-Laws  
By-Law No. 558, validating the release of a certain mortgage held by the Corporation of the City of Kelowna upon Lot 17, R.P. 362, was reconsidered and given final passage.

By-Law No. 559, amending the Trade Licence By-Law by raising the scale of fees for licences for public halls and theatres, was introduced and was given three readings.

By-Law No. 560, selling Lot 54, R.P. 1102, to Mr. Thomas Blaskovits for \$50, also received three readings.

City Asked To Sell Lane  
A letter from Mr. M. Harbuz asked if the Council would sell the lane between Lots 1, 2, 3, 4 and 5, R.P. 1472, as the City apparently did not use it.

The City Clerk was instructed to inform the enquirer that none of the lanes was for sale, but that a number of lots in that part of the town could be purchased from the City.

Tag Day  
The Kelowna Women's Institute was granted permission to hold a tag day on Saturday, September 5th, in aid of the ambulance fund and child welfare work locally.

Revelstoke Proposals As To Unemployment  
A lengthy resolution, accompanied by a letter asking for its support by the Kelowna Council, was received from the City Council of Revelstoke, advocating that immediate action be taken to stop free travelling on trains, that temporary employment be given to all unemployed in widening and connecting the missing links in the national highway system, and at the same time that a programme be formulated of permanent work by placing or drafting the men from temporary work into permanent work, by establishing them in the development of our resources, under supervision.

The matter of unemployment already having been fully covered by recommendations, resolutions and conferences, the Revelstoke proposals were filed.

Commercial Broadcasting Station  
A letter from Mr. J. W. B. Browne advised the Council that Okanagan Broadcasters, Ltd., was being incorporated to operate a commercial radio broadcasting station under what the expected would be the title "Station CKOV," if the call letters had been asked for (signifying "Canadian Station Kelowna, Okanagan Valley") should be allotted to the new licence by the Department of Marine and Fisheries. He stated: "I have every reason to believe that this broadcasting station will be, within two years at the outside, one of the most valuable means for publicity, imaginable for the city and district, and one deserving of your support as a body most vitally interested in the progress of the city."

The letter added that the new station would carry on all the past activities of amateur station 10AY. A Marconi transmitter with double the power of the old station would be installed, and therefore might be expected to cover a considerably longer range. The hours of broadcasting would be much lengthened and connection would likely be made with the C.P.R. transcontinental programmes.

A block of \$2,400 worth of stock was to be floated in aid of initial expenses. If it was not permissible for the City to become a stockholder in a private organization, Mr. Browne suggested that a subscription might take the form or a donation for a series of concerts designed to advertise the city.

The City Clerk was instructed to inform Mr. Browne that the City had authority to take shares in an enterprise but looked with favour upon his undertaking, which the Council wished every success.

Report Of Poundkeeper  
The report of the Poundkeeper, Mr. J. Powick, for the month of June showed that four horses had been impounded during that period, all the animals having been released upon payment of fees totalling \$12.00.

Authority was given by resolution to the Mayor and City Clerk to execute the usual annual agreement between the City and the Canadian General Electric Co., Ltd., for the purchase of certain supplies.

The Council adjourned until Monday, July 27th.

## MORTGAGE SALE

Under and by virtue of the powers of sale contained in a certain Indenture of Mortgage, which will be produced at the time of the sale, there will be sold on

Wednesday, July 18th, 1931, at 12 o'clock Noon upon the Premises Hereinafter Described, Situate in East Kelowna, Province of British Columbia, Nearly Opposite the School, the Following Lands and Premises Consisting of Valuable Orchard Property, viz:

ALL AND SINGULAR that certain parcel or tract of lands and premises situate, lying and being in the Osoyoos Division of Yale District, in the Province of British Columbia, and being composed of Lot Nine (9), according to a plan of subdivision of Sections Fifteen (15) and Sixteen (16) and a part of Lot Fourteen (14) in Township Twenty-six (26), registered in the Land Registry Office at Kamloops, B. C., as Number 187, save and except that portion described as follows: Commencing at the south-east corner of Lot Nine (9); thence northerly along the easterly boundary of said Lot Nine (9) 208.7 feet; thence westerly and parallel with the southerly boundary thereof 208.7 feet; thence southerly and parallel with the easterly boundary 208.7 feet more or less to the southerly boundary of said lot; thence easterly along said southerly boundary to the point of commencement, containing one acre more or less. The said mortgaged lands and premises are within an Improvement District and liable for taxes, tolls and other charges levied or imposed by the Trustee of the Improvement District filed Number 9331B.

Terms and Conditions of Sale will be made known at the time of sale. For further particulars and conditions of sale apply to Messrs. Walsh, Bull, Housner, Tupper & Molson, The Royal Bank Building, Vancouver, British Columbia.

Dated this 18th day of June, A. D. 1931.

## OKANAGAN CENTRE

The Rutland Troop of Girl Guides have been in camp on the beach to the south of the village the past week, under the leadership of their Captain, Mrs. T. G. S. Chambers. Miss A. B. Dalzell accompanied them in the capacity of camp nurse.

In the return match played by the local Tennis Club with the Vernon Club at the latter place last Thursday, the tables were turned, the Vernon team winning 11-4. The Centre club was represented by Mesdames Cheesman and Gibson, Misses Copeland and Gleed, Messrs. Cheesman, Pixton, R. Wentworth and M. P. Williams.

After being without water (except domestic) for a fortnight, the pipes were again filled the middle of last week and irrigation is the order of the day all over the district. It is reported that the head waters are now within three inches of the height at the beginning of the season, owing to a copious rainfall in the mountains.

Mr. and Mrs. T. A. Gray had for their guests over the week-end Mr. Gray's brother, together with his wife and two daughters, of Bozeman, Mon.

Mr. M. Marshall, of the staff of the Nanaimo High School, is spending the long holiday with his parents, Mr. and Mrs. G. D. Marshall.

Miss Bosman, of Vancouver, arrived on Saturday's boat for a week's visit at her parents' home on the north lake-shore.

The younger set was delightfully entertained at the tennis grounds on Monday evening by Mrs. Macfarlane. From five o'clock until dusk the courts were filled with jolly foursomes, after which supper was served in the pavilion, when the hostess was assisted by Mrs. Gleed.

Mr. and Mrs. N. H. Caesar and daughter Miss Winna made a leisurely trip to Revelstoke last week, leaving on Wednesday and returning on Friday.

Mr. Keith Macallister, of Rossland, is the guest of Mr. Kennard this week while attending the Interior of B. C. Championships at Kelowna.

Notices are posted for an extra School meeting to be held at the Schoolhouse at 7.30 p.m., July 21st.

Swarms of bees invaded a crowded train. Attracted by the jam?

## BOY SCOUT COLUMN

1st Kelowna Troop  
Troop First! Self Last!

Edited by Harry Campbell

Orders for the week ending Thursday, July 23rd, 1931:

Duties: Orderly Patrol for the week, Beavers; next for duty, Wolves.

Rallies: None till further notice.

Scout Camp, July 6th to 10th.

Camp was a pretty quiet place Monday and Tuesday while the Scouts were struggling to Little White Mountain. Only four boys were left to hold the fort against the chipmunks. At 7.30 p.m., Tuesday, the hikers wearily unloaded themselves off the truck. What a change from the clean, lively bunch that left! They returned dusty and tired, almost too tired to wash for the supper prepared for them by their less fortunate brothers who missed the hike. Lights out came none too soon for the boys that night. I believe the thought uppermost in each boy's mind as he climbed into his blankets was: "It was a grand hike but I'm glad it is over."

At 6.30 a.m., Wednesday, the Eagle patrol were dragged from their beds to attend their duties as kitchen patrol for the day. Under the guidance of their leader, Peter Acland, this patrol put in a marvellous day's work as kitchen orderlies. I thank these boys for the competent manner in which they discharged their duties. To have the preparation of meals in charge of an able patrol lifts many worries from the S.M.'s shoulders and plays a major part towards a successful day in camp.

At 7.30 the dreams of the sleepers were blasted by the reveille. It certainly took some prodding to get all the boys out. Some were still half asleep when they turned out to washing parade. The Beaver patrol ran off with the honours in tent inspection. The features of the day were a strenuous session of P.T. in attempting to get the stiffness out of the hikers, a patrol competition in tenderfoot work and last, but not least, a paper chase. The hares, R. White and L. Cross, led the pack a merry chase until their paper ran out. At some part of the chase the hares got separated, and the big brother Bill pounced on him and dragged him captive to camp. White managed to elude his pursuers and to strut proudly back to camp free.

In the evening officers and all joined in a "jolly game of footie," as Tony Agar has it. I cannot say there was much footie displayed but the rest of Tony's expression certainly made itself apparent. Everyone got such a kick out of it we could hardly stop the game for the camp fire.

Around the camp fire Mr. Talbot gave us a very interesting and educational talk on the compass and its use. We are very indebted to Mr. Talbot both for entertaining us and for the useful knowledge imparted to us. I feel that most of us there, provided with a map and compass, will now be able to lay a course to any desired objective.

Thursday at 6 a.m., the Wolves took over the duties of the kitchen. They outdid themselves in giving us a wonderful spread at the supper table. We can hardly give them all the credit for that wonderful feast. It was their luck to be on duty when so many presents came to camp. The Scouts were very grateful for the donations. If the senders of gifts of food could only be at our table to see their gifts disappearing, they would certainly be well repaid for their kindness. I take this opportunity to pass on the thanks of the Scouts to camp to Mr. Chapman for ice cream, to the Girl Guides for ice cream, to Mr. Jim Calder for four dozen bottles of pop, to Mrs. Armstrong and Mrs. Martin for cake, to Mr. Treadgold and Mr. Ward for vegetables, to Mr. Scrim for cherries to Mrs. Cross for sugar.

At 7 a.m., Thursday, the bugler summoned the sleepers out for the day. The last day in camp was to be a full one for all. It was visitors' day and sports day. Tent inspection was won by the Otter Patrol. After the preparations were completed for the sports the patrols vied in a memory game.

At 2.00 p.m. the day's sports meet began. The events were keenly challenged by all patrols. The patrol relay race had to be run three times, for the runners were so eager to get away that each team disqualified itself and no winner could be declared.

At 3.30 the meet was broken up by the down-pour of rain and everyone took shelter in the tents. The Otters easily carried off the honours in the sports due to the ability of Rusty Martin, who was the individual star with a total of 21 marks, followed by Bill Cross and R. White, with 10 marks each.

Scoutmaster Laidlaw joined us in the evening and took a major part in our last evening at camp. After flag lowering we all joined in a rough and tumble game of football. Though much kicking was done, no goals were scored by either side. At the camp-fire every one joined heartily in the singing of old songs. Though we may have lacked in melody and music, we certainly made up for that deficit in volume.

Friday morning we were all astir at 7 a.m. After a huge breakfast, put out by the Otters under Bill Cross, the work of breaking camp commenced. Every one was kept busy from 8.30 till 10.30, when the truck arrived to bring us home. Before leaving we held our last parade to announce the winner of the tent inspection. The Otters were the proud holders of that honour.

We also said farewell to our brother Scout Jim Tremlett, of San Francisco. Jim was the first of our brother Scouts of the south to visit us in camp. We all enjoyed his stay and were won over by his cheery and willing personality. Good luck and good camping to you, Jim. Remember there is always a welcome for you at the Kelowna Scout Camp.

At 10.30 we boarded the truck and turned our site over to the Girl Guides. We wish them every success throughout their camp.

We are told that certain musical notes prevent sleep. So also do certain promissory notes.

## CHURCH NOTICES

ST. MICHAEL AND ALL ANGELS  
Corner Richter Street and Sutherland Avenue  
July 19th, Seventh Sunday after Trinity

8 a.m., Holy Communion.  
9.45 a.m. Children's Eucharist (children assemble 9.30 a.m.) The young people are invited to make this their monthly Communion, parents are also invited.

## WESTBANK

The girls held a small dance in the Community Hall on Friday night. Miss Jean Brown very kindly lent her Orthophonic. A good supper was served.

A party of Westbank tennis players visited Peachland on Sunday afternoon and had a most enjoyable time.

Visitors from Saskatchewan are, Dr. Attridge and family, Mrs. Hinman and Mrs. Paul and family, staying with Mr. J. R. Morrison.

The monthly meeting of the Women's Institute was held in the Community Hall on Tuesday afternoon. On account of the busy season, there were not as many present as usual. Mr. E. E. Atkinson, of the Dominion Experimental Station at Summerland, gave an interesting address on the making of maraschino cherries and candied fruit. The committee in charge served refreshments.

Mrs. F. A. Dolbin, who underwent an operation in Kelowna Hospital last week, is making good progress towards recovery.

The annual school meeting was held in the Schoolhouse on Saturday night. The financial report was read and passed and Mrs. W. B. Gore was again elected for another term of office on the School Board. The School assessment for the coming year was lowered by \$700, about 20 per cent. After some discussion, \$25 was voted for the local V.O.N. Association. Mrs. E. C. Paynter was re-elected as auditor for the coming year. During the past year the ten acre tract belonging to the school has been fenced in.

## KELOWNA FRUIT AND VEGETABLE SHIPMENTS

The bounty on wolves is down to \$5, on cougars, \$30, and coyotes, \$5. A bounty of 10c is placed on magpies. Other bounties remain the same as last year.

ing fulfilled in our day." Sunday, 7.30. Regular meetings Tuesday and Wednesday, 8 p.m.

Pastor, C. B. Close.

## GUILD OF HEALTH

Scripture Study for all interested in the subject of Spiritual Healing.  
I. Cor. 5: 17-21. I. Tim. 2: 1-8. I. Cor. 12: 1-12. I. Cor. 12: 27-31. Rom. 12: 1-2. Rom. 8: 1-11. II. Cor. 4: 1-18. Love is not merely an attribute of God, it is His very Being. Hence to be without love is to be without God. Love finds expression in obedience, not service or grudging submission, but joyful response in which the body as well as the mind and spirit is able to join. Thus an avenue of new life is present in the world for the healing of every sickness and every disease, which we are able to approach and of which we are able to partake as the love of God becomes increasingly active in us.

## 1ST RUTLAND TROOP

"Do A Good Turn Daily"

Orders for the week ending July 18th:  
The Troop will proceed to camp on Friday, at 9 a.m. Lists of supplies and equipment were issued at last week's meeting. Absentees can obtain a copy from their patrol leader.

The S.M. being on the sick list, last Friday's meeting was in charge of A. S.M. Greville Harrison. There was a good attendance and a programme of Scout work and games was successfully run off.

The Wolf Cub Pack is now in camp at Okanagan Centre.

A. W. GRAY, Scoutmaster.

## WOLF CUB NOTES

1st Kelowna Pack

"Do Your Best"

The Pack will rally at the Scout Hall on Friday, July 17th, at 7.15 p.m., to discuss matters about the camp at Cedar Creek, on Saturday and Sunday, July 18th and 19th.

The Cubs going to camp will leave the Scout Hall at 10 a.m., Saturday.

J. TREADGOLD, A.C.M.

ST. CHARLES MILK  
is made in B.C.

BORDEN'S ST. CHARLES MILK is made in B.C. from selected dairy cows, pastured in the famous Fraser River Valley. Every tin you buy helps to support this local industry.  
St. Charles Evaporated Milk is invaluable to housewives. When you use it you will find it will greatly improve the flavour of your cooking.  
It is ideal for soups, cream, cakes, puddings, cakes, pastries, etc., etc., and adds a new richness to the flavour of your coffee.

## At Last! THE ANTI-CARBON MOTOR OIL

NOT A SPOONFUL OF CARBON IN THOUSANDS OF MILES

100%  
PENNSYLVANIA  
MADE  
100% BETTER

In the New VEEDOL, for the first time, 100% Pennsylvania is 99.1% carbon-free. It's so pure you can read a newspaper through it.

At the end of thousands of miles of silken driving, your engine is clean... not a spoonful of carbon... no friction-drag... no broken oil film... no hot metals grinding together.

The heat-resisting, long-lived qualities of 100% Pennsylvania are magnified and multiplied in the New VEEDOL... Its full lubricating range is from

far above the boiling point to way below the freezing point... Yet, you pay no premium price for these premium qualities.

## FOUR EXTRA ADVANTAGES BUT NO PRICE-PREMIUM

1. ANTI-CARBON... 99.1% carbon-free.
2. ENDURANCE... Long life. Greatest economy. Longest mileage.
3. FREE POURING... Pours at zero. Lubricates at 20° below.
4. PURITY... So clear you can read a newspaper through it!

WORLD-GIRDLING PLANE AT EDMONTON

This photograph made in early morning at Edmonton, Alta., and carried by Post and Gatty in their aeroplane to Roosevelt Field, New York, shows the Winnie Mae as she became mired in the mud upon their arrival from Alaska. Wiley Post and Harold Gatty made a record aerial circumnavigation of the globe, a journey of 16,000 miles with 13 intermediate stops, in 8 days, 15 hours and 51 minutes, with an actual flying time of only 4 days, 10 hours and 8 mins.

### FERRY TALES

#### A Miracle

A crony of Old Bill's, whose hearing had not improved with age, accompanied the grizzled commuter to the east side. A miniature gale swept the lake as the voyage progressed, and it was of a strength sufficient to carry away at times even the bellowing notes of our ill-famed hero.

"Kinder a windy day," remarked the old man to his bewhiskered mate. "Hey?" queried the old gentleman, cupping his ear with a gnarled hand. "Kinder a windy day," repeated Old Bill in a louder voice.

"Hey? Yes, I got me pay," answered the other, reaching slowly for his fare. Bill snorted and leaned closer. "I say, Sandy, et's a windy day," he bellowed into the ear of his companion.

"An' I say," said Sandy, digging a little deeper in his pocket, "I got me pay. Devil take ye, mon."

Old Bill reached for his black plug of tobacco and swore softly. Sandy, with an injured look, deigned to say nothing.

Presently: "Thet thar boat," yelled Old Bill pointing to a small craft, "es havin' a devil o' a time."

"Eh?" queried his mate. Old Bill expanded his lungs and repeated the remark.

Sandy squinted and gazed at the boat, which was plunging in a choppy sea. At length he said: "Hoot, mon, an I wouldn't take it fer a dime."

"Y' deaf old bat," Bill roared in disgust, "I ain't tryin' t' sell y' th' boat." "Eh? I knowed it wouldna float," said Sandy as the boat disappeared behind a wave for an instant.

Old Bill spat so furiously that it made a dent in the dock, and, in the pilot house, the Captain wondered if the ship had struck a rock.

Silence. "Wal," said Old Bill at length, "et's goin' t' be a nawful summer."

"Eh? Naw, Willie, ya couldna be much dumber." And Sandy brightened perceptibly.

"Th' hell y' say," barked the old man reddening. "Pull th' alfalfa outer yer ears, y' old galoot."

Sandy bared his smoky molars in a grin. "Willie, if y' dinna care a hoot, I don't. But, mon, y' should brighten up a bitul."

Bill bristled. "Say, y' halter-blind, dirt-plugged eared, old relie, fer less'n a chew o' tobacco I'd lam y' on th' snout!"

"Eh? What's that?" asked Sandy, cupping his left ear.

Bill spat out his chew in disgust. "Ef I tole him where he cud git a meal fer nothin'," mumbled the old man darkly as he leaned on the rail. "I bet th' old fossil'd hear every word o' it."

"Lead me to it, Willie," said Sandy promptly.

The boat hit the dock with such force that Old Bill, who had opened his mouth in astonishment, nearly hit his bulbous nose with the point of his chin.

The voyage, friends, was over.

### OKANAGAN MISSION

The Sunday School picnic and prize giving will be held, by kind permission of Mr. and Mrs. W. D. Walker, on their grounds on Thursday, July 30th, at 3 p.m. All children who would like to come are heartily welcome.

Last Thursday afternoon, the First Gymkhana of the season was put on by the Committee of the Riding Club. The weather was close and thundery, but remained fine enough not to interfere with the afternoon's sport, though one heavy shower—fortunately during the tea interval—sent all the visitors scurrying into the shelter of the Eldorado Arms. There was a fine turn-out of riders, and the spectators, though few at first—2 p.m. being a little early for some people, steadily increased in numbers until there was quite an inspiring array of cars.

This time several competitors came from Kelowna and elsewhere, an improvement from every point of view as outside competition is beneficial to any club. The programme, too, had several new features, such as the balloon sticking race, and the polo stick and ball race, when the competitors had to dribble a ball across the course with a polo stick. The bobbing for apples also caused much amusement. The most interesting of all, however, was the jumping, which was first made possible this year and was watched with great interest. Special mention should be made in this connection of

the mare ridden by Betty Fuller, which also won the Horn Cup given for general turn-out and style. Joan Tailleur came second in this event. Ice cream and soft drinks were served during the sports by the Eldorado Arms in addition to tea, which was all set out on the lawn when the above mentioned thunder shower sent everybody into the hotel lounge. The winners of prizes, which were given away by Mrs. Haverfield, were as follows:

Horn Cup—Betty Fuller; 2, Joan Tailleur.

Grand Total of Points.—1, R. Fosbery; 2, P. Mallam.

Balloon Sticking.—1, Peter Mallam; 2, C. McClure.

Polo Stick and Ball.—1, R. Fosbery; 2, J. Tailleur; 3, P. Mallam.

Relay Race.—1, L. Collett, N. Apsey, P. Crichton; 2, S. Agar, P. Norman, M. Murdoch.

Bobbing for Apples.—1, Philip Norman; 2, W. Hay. Jumping.—1, Betty Fuller; 2, R. Fosbery; 3, A. Innocent. Bending Race, under 16.—1, P. A. Land; 2, K. A. Hill.

Mr. J. Stallard returned on Sunday from a trip to Nelson. He reports that the roads are in good shape but for a gravelly piece the other side of Trail.

The School meeting took place on Saturday and was well attended, the room being nearly full. The chair was taken—after a little persuasion—by Mr. Fuller.

The meeting started with the reading by the Secretary of the financial statement and the Auditor's report, followed by the election of an auditor for the coming year, Mr. Middlemass being unanimously re-elected. On go-

ing into the details of the financial report, it was found that the fuel bill had increased considerably with the new heating arrangements, though it was agreed that the comfort of both scholars and teachers had also notably increased! A suggestion was made that sawdust might be used as fuel and a saving be thus effected, but as there was some initial outlay to be considered, the matter was left in the hands of the Trustees.

Exception was also taken to the fact that, while prices had decreased on every hand, our expenses in salaries remained the same, but on this being embodied in a motion and put to the vote, the majority voted that no change be made, the Secretary, Mr. Surtees, pointing out that in any case teachers' salaries were to be standardized in the near future, so that the question might well be left in abeyance.

A protest was also voiced by some of the meeting against the payment by rural School Boards of the fees of High School scholars from their schools up to the age of 16. This was voted on and a resolution voicing the protest was drawn up to be sent to the Trustees' Association.

The meeting elected Mrs. T. G. Norris to replace the retiring Trustee, Mr. A. V. Surtees, to whom a vote of thanks was returned for his services during the last three years. The meeting then dispersed.

Visitors to the Eldorado Arms during the past few days include: Mrs. H. H. Boyle, Penticton; Mrs. J. G. Muir, Miss K. M. Derby, Mrs. W. C. Ross, Miss O'Shea, Mrs. N. K. Sullivan, Vancouver; Capt. and Mrs. J. M. Walter, of the Okanagan-Cariboo Trail Association.

Mrs. Haverfield left on Wednesday with her daughter and niece for Fish Lake, near Kamloops, where they have rented a cottage for part of the summer holidays.

"The man who can call a wooden hut an ideal home," said a judge recently, "I should describe as an idiot." We should refer to him as a real estate agent.—The Humorist.

A man arrested in Russia with bombs in his possession stated that he was working for the good of mankind. Apparently he was interested in uplift of some sort.

## Only PHILCO SUPERHETERODYNE

Meets today's crowded Broadcasting Conditions

ONLY a Superheterodyne can meet the modern demand for performance. But Superheterodyne alone is not enough. It takes Screen Grid power and **Balanced Unit construction**—an exclusive Philco feature—plus superheterodyne—to bring in far away stations with clear, true undistorted tone—to separate—at all points on the dial—the clutter of broadcasting stations which on any other radio tend to interfere with each other, so that you can listen to the one program you want to hear. Then to still further ensure the perfection of Philco performance each Philco cabinet has been designed and engineered into an acoustic masterpiece perfectly balanced to enhance the beauties of every program you hear.

9-Tube Baby Grand

Indisputably greatest of all small sets. Has every big set feature—save size. Enormous distance range, knife-edged selectivity and Philco's true, clear undistorted tone. Price . . . \$105.00

COMPLETE WITH TUBES

11-Tube Lowboy

A truly magnificent set at an amazing price. Sumptuous cabinet designed by Norman Bel Geddes, and positively the greatest performing set ever built. Price . . . \$210.00

COMPLETE WITH TUBES

### Your Choice of Three Chassis

7 TUBES

9 TUBES

11 TUBES

No matter what sum you want to spend, there is a Philco in 7—9—or 11 tubes to meet your exact requirements—a Philco that offers you incomparably more at less money than any other set—and every one a Balanced Superheterodyne.

ALL PHILCOS have station recording dial with glowing arrow station finder.

EVERY PHILCO has tone control and static modifier.

ALL PHILCOS are balanced unit radios.

ALL PHILCOS have new improved electro-dynamic speakers. (25% more efficient.)

### Bring Selling Costs Down.

High selling costs hurt  
both buyer and seller.  
Wholesalers can cut selling  
costs to everyone's advantage  
through use of the  
long-distance telephone.

A salesman calls the  
retailer at a given time and  
the retailer places his order.  
By this method all the latest  
offers and price changes are  
available and can be taken  
advantage of quickly.

The long-distance telephone  
gives the desired personal  
contact and saves the  
time of the merchants called  
up by the salesman. Ask the  
firm you deal with about  
long-distance telephone service.

## THE KELOWNA COURIER AND Okanagan Orchardist.

Owned and Edited by  
G. C. ROSE

### SUBSCRIPTION RATES

(Strictly in Advance)  
To all points in Canada, outside the Okanagan Valley, and to Great Britain, \$2.50 per year. To the United States and other countries, \$3.00 per year.  
Local rate, for Okanagan Valley only:  
One year, \$2.00; six months, \$1.25.

The COURIER does not necessarily endorse the statements of any contributor's article. To ensure acceptance of all manuscripts should be legibly written on one side of the paper only. Typewritten copy is preferred. Amateur poetry is not published. Letters to the editor will not be accepted for publication over a "nom de plume"; the writer's correct name must be appended.

Contributed matter received after Tuesday night may not be published until the following week.

### ADVERTISING RATES

Contract advertisers will please note that their contract calls for delivery of all changes of advertisement to The Courier Office by Monday night. The rate in the mutual interests of patrons and publisher, to avoid congestion on Wednesday and Thursday and consequent night work, and to facilitate publication of The Courier on time. Changes of contract advertisements will be accepted on Tuesday as an accommodation to an advertiser confronted with an emergency, but on no account on Wednesday for the following day's issue.  
Transient and Contract Advertisements—Rates quoted on application.  
Local and Municipal Advertising—First insertion, 10 cents per line, each subsequent insertion, 5 cents per line.  
Classified Advertisements—Such as For Sale, Lost, Found, Wanted, etc., under the heading "Want Ads," first insertion, 10 cents per line; each additional insertion, without change of matter, 10 cents per line. Minimum charge per week, 80 cents. Count five words to a line.  
Each initial and group of not more than five figures counts as a word.  
If no desired, advertisers may have replies addressed to a box number, care of The Courier, and forwarded to their private address, or delivered on call at office. For this service, add 10 cents to cover postage or filing.

THURSDAY, JULY 16th, 1931

### LITTLE CHANGE IN APPLE ESTIMATES

(Continued from Page 1)

about over and have not been as heavy a crop as anticipated.

Sweet cherries, particularly Bing, suffered excessively from the rain. Royal Annes were not hit so hard and Lamberts will produce a fair crop. Among the sour cherries Montmorencies are being harvested, while the main crop, consisting of Olivets and Morellos, are beginning to show colour and will be ready towards the end of the month.

Apples are sizing excellently, particularly Yellow Transparent and Duchess, and these should be on the market in a matured condition in about two weeks' time. Wealthies are an excellent crop and are developing nicely. Gravensteins are also showing up well. Later varieties are in a satisfactory condition. Despite the heavy rains of June, the fruit is remarkably clean and free from scab where proper spraying has been carried on.

Pears are also a good crop and are sizing nicely. Plums in general will be light but Italian prunes indicate a good crop. The greenhouse tomato crop is drawing to a close and prices are low. Outdoor vegetable crops are looking in excellent condition. Fine weather is needed to bring on corn and other warm season vegetables.

### Lower Mainland, July 8

The last few days of June contributed towards making the month the wettest on record. Summer weather is prevailing now and came on quite suddenly, with the past three days very warm.

The strawberry season is over and has been very satisfactory. The crates of good quality are being picked but the demand is small. Cars of raspberries are now going forward in good condition. The weather during the early picking made shipping of good quality berries impossible and it was necessary to process the fruit for jam purposes. Berries are ripening rapidly and indications are that the season will be comparatively short.

The continued cool, wet weather, and sudden change to warm, dry conditions is causing a reduction in the loganberry crop and at the present time the reduction is about 30 per cent of the estimated tonnage. Prices offered for canning and jam purposes are not sufficiently high and a number of growers intimate that the crop will not be picked.

In spite of considerable splitting of cherries, a large tonnage has been sold throughout the Fraser Valley, and the Chilliwack Cherry Carnival was a successful event.

Pears and apples, while not a heavy crop, are showing up favourably. Early varieties of apples are of good size and are showing considerable colour. Some thinning of Yellow Transparent are on the market but in the majority of cases have been picked too soon to be good cooks.

The canning of peas is just commencing and will be in full swing in another week. The season has not been as favourable as 1930, and while some fields are showing evidence of good yields, others are light. Beans are coming on rapidly during the past ten days.

There is a plentiful supply of vegetables on the market. To date over 125 varieties of vegetables have been shipped from the Lower Mainland, but more attention will have to be given by growers and shippers to the quality and grading if satisfactory markets are to be held.

Summerland, Peachland, Naramata, Westbank, July 8

Since the 1st of the month the temperature has been rising steadily and this condition has been most favourable for all crops. The vegetable crops are making rapid growth, with semi-ripe tomatoes coming in freely by the 14th.

Cherry crop shipments will be about over in four or five days. Apricots will commence moving early next week. Some peach plums also in favoured sections will be picked. The green apple pool is open and all early varieties will

### WOMAN MAGISTRATE LOSES OFFICE

Magistrate Jean Norris, Manhattan's first woman magistrate, who has been ordered removed from the bench by unanimous vote of five justices of the Appellate Division, New York.

be shipped, provided they size two and one-half inches.

Apple and pear crops are sizing well and orchards generally show fine colour. Green and woolly aphids are spreading rather seriously in some sections.

Penticton, Keremeos, Kaleden, Oliver, Osoyoos, July 7

The weather has now settled down and we expect our usual hot July weather. June rains have augmented the irrigation supply and ground crops, including cantaloupes, are doing well. Cheeses are cleaned up at Oliver and Osoyoos, while apricots are now moving in volume, cucumbers, carrots, and a sprinkling of tomatoes and cabbage are also moving from this point.

At Penticton, Bing cherries are practically over and Lamberts should be all shipped this week. Some green apples are being shipped. Peach plums and apricots will be coming in the latter part of the week, and will be moving in volume next week.

### General Summary of Okanagan Conditions

The fruit crop prospects for this season have been particularly difficult to estimate owing to the many varied factors entering into the situation. Principally among these might be mentioned the early spring frosts; poor pollinization and heavy dropping; lack of virour in the trees; heavy rains; the amount of physiological troubles developing; the excessively warm weather during May and early June, followed by three weeks of very humid, rainy weather; with slight hailstorms at Salmon Arm, Vernon, and Summerland. These, together with the shortage of storage irrigation supplies, applied early in the season, have complicated the situation considerably. The injury from spring frosts was more or less local in the south, but had a somewhat devastating effect over a larger area. Pollinization was not good and the set of fruit did not correspond to the bloom. Trees showing low vigour, principally due to lack of sufficient moisture during previous years, not only set lightly but in many cases developed Drought Spot badly. The Winfield, Woods Lake sections are very severely affected with this trouble, although it is general in a lesser degree. The dry spell, accompanied by strong drying winds, was very trying on crops generally, and a heavy drain on moisture supplies. The June rains have greatly added to the water supplies in the soil and in the storage reservoirs and have improved growth conditions generally; so that most districts are now in as good or better condition than they were at this time last year from an irrigation standpoint. Three district systems indicate a shortage, viz. Scotty Creek, and Black Mountain, at Kelowna in the north, and Kaleden to a lesser degree in the south.

The present estimates as compared with 1930 are as follows:

Apples	75-80
Pears	90-95
Plums, Prunes, Crabs	90-95
Peaches	60-65
Apricots	200

Cherries are practically over after a hectic time with splitting during the wet weather. They are in good demand now, with only a few cars to ship. Apricots are now being shipped and should be in full swing next week. A few green cooking apples are being included in mixed cars. Peach plums will be moving shortly. Raspberries are also moving in small quantities at present.

### Vegetable Crops

The rains during the latter part of June have greatly improved the growth and quality of all vegetable crops. Tomatoes, although reduced in acreage this year, are well advanced and looking particularly well. At Kamloops they are a little backward in some of the fields. Shipping of semi-ripes will begin shortly from the earlier fields. Onions, which show an increased acreage, have also improved lately, although many fields are still a little patchy due to ravages of the Onion Maggot. Potatoes, which are also planted more heavily this year, are on the whole only fair, a good deal of mosaic and other potato troubles developing in many of the fields where non-certified seed has been used. The early reds started moving fairly strong, but were suddenly dropped in price to around \$15.00 per ton stopped further digging for the present. Cucumbers, cabbage, celery, carrots and beets, have all been meeting with good demand and have been moving out in considerable volume at reasonable prices. Beans, which have been

## KELO KER'S COLUMN

(Current Comment)

### As Told To Me

A reporter should never betray a confidence, but as I'll be in the great industrial city of the unemployed when The Courier goes to press this week, I'll let a revelation of valley-wide importance sneak out.

It is this: One, Baron Bologna, retired bull thrower of that once great monarchy Spain, is on his way to Kelowna to make sandwiches of an offensive Okanagan steer. He is coming without the knowledge of that unsuspecting animal and—until now—of the generally illused public.

Baron Bologna, B.S. (Bull Slinger), before Spain was made none too safe for democracy, was the royal barbeque in the regal household. Before Alphonse was gently told the King had been extremely wet and that this old Spanish custom was going into the discard, the Baron was really quite a fellow in his own quaint way. He had so many holes dug up and down the coast of Spain that one day there was a cave-in and a whole lot of Spain went into the drink.

Senior Bologna used each and every hole to barbeque the bull—beg pardon—the steers which kept AI in sandwiches between polo games, and the Baron became so good at it that he was elevated beyond the common title of chief. Soon he had hirelings doing all the work while he flirted with one of those dark-eyed damsels you read about and I never see, but he kept a watchful eye on his men between drinks and never once allowed AI to be poisoned.

When the King was fired unceremoniously by his playful subjects, the Baron was also told to vamoose. He wandered round Europe for a time, but royal crowns were so scarce he decided to come to America and try his luck with bald pates. It was while resting on a park bench in New York that he picked up a Courier and found that the Gyros were tearing their hair for a barbeque par excellence. He at once examined the soles of his shoes and set out for our fair city.

If you see him around, give the Baron plenty of room. He's a temperamental son of a gun, his veins fired with the blood of the Latin, and bulls are scarce in this corner of the hemisphere.

But his sandwiches on July 23rd are very likely to endear him to your stomach!

(Gyros, please pay the cashier the usual space rates.)

Open Letter  
The "Brotherhood of Bottle Busters" has asked me to print the following letter addressed to Premier Talmie: "Dear Doc: You dropped the reins of the humble horse and took over the reins of government, we shouted with sheer joy—ir truth, we bought an extra case of soothing syrup and celebrated wildly. 'Now,' we shouted, 'we'll get bigger and better bottles of booze at smaller and littler prices.'"

"But, oh, how you disappointed us, Doc! With these hard times and all, we've had to cut down on our grogery in order to recite the poetry of old Omar Ky—Ky—something in a properly mellowed atmosphere. 'Tis a shame, Doc; yes, sir 'tis a shame. If you don't do something right away, we'll see Jimmy about it."

"All we're asking, Doc, is that you slice a dollar off your good Scotch, six pence off the best ginseng gin and—well, to the devil with the rest. We can stagger along with those two."

"Bring down the cost of living, Doc. It's tough on us guys that have to buy our own."

There is argument in the letter. A \$5 bottle should sell for either four dollars or fifty. Its intrinsic value must be about seventy-five cents.

Toodle-oo! I'm off on holiday.

planted more extensively, are looking very promising. This is also true of cantaloupes in the Oliver district.

### Kootenay and Arrow Lakes, July 7

Since the first of July the weather has been sunny, hot, and dry, with cool nights. Moisture conditions are good but irrigation will again be required shortly, for most crops.

Strawberry picking is over, and the season has not been a favourable one. Quite a lot of berries spoiled in the fields owing to the heavy rains during the picking season. Raspberries are now moving from the district in small quantities, with heavy shipments going forward by the 15th. The June rains were beneficial to the growth and development of the raspberry crop.

Bing and Royal Anne cherries are moving from the district, but the tonnage of these varieties will be much below normal production. They suffered by the heavy rains in June, causing over 50 per cent of the crop to split. Lamberts are a heavy crop, this variety has not suffered to any extent by the June rains.

All fruits are sizing well and apple thinning is now in full swing. The apple crop on the whole is fairly clean, and Apple Scab is much less prevalent in the orchards than last year. Field crops generally are making good growth, tomatoes, corn, and cucumbers much needing the warmer days. Local grown potatoes, cabbage, beets, carrots, head lettuce, onions, radishes, cauliflower, and green peas are now supplying the Kootenay markets.

### Creston Valley, July 7

The strawberry season is about finished; the district shipped eleven carloads compared with fourteen last year on practically the same acreage. Raspberries are increasing rapidly and will reach their peak about the middle of the month. To date the weather conditions have been very favourable for good size and quality.

Cherries, especially Bings, are a light crop; recent showers have split about 20 per cent. By the end of the week Lamberts will be taking their place. The Lamberts were not hurt by the

spring frosts to the same extent as the Bings, nor were they matured enough to be split by the June rains. Other fruits are sizing rapidly, and thinning is in full swing. Apples are very free from scab.

Tomatoes and peppers are beginning to make more rapid growth, but the recent cool wave will delay maturity until the end of the month.

Grand Forks, July 6  
After a prolonged spell of cool, wet weather, it has turned warm again and growing conditions are excellent. The moisture supply is good in most soils with plenty of irrigation water in the creeks and for the pumping plants.

Early potatoes are moving to market in considerable quantities at present, with prices good but dropping fairly rapidly. Mosaic will reduce the yields in some sections while other fields will yield heavily. The onion crop is showing up very well since the rainfall commenced, and germination is much better than expected earlier in the season.

The apple crop was affected in one or two orchards with hail on June 28th and 29th but not seriously. Apples will about equal the crop of last year, while pears will be heavy. There is some Drouth Spot injury on McIntosh trees.

Raspberries will shortly be moving to market, and the yield will be heavy. The crop of black and red currants will also be heavy.

### ALFALFA UNDER ROTATION PLAN

Where climatic and soil conditions are suitable, alfalfa is perhaps the best permanent hay crop known. At Windermere, B.C., such conditions prevail, and when grown under irrigation, as is the case in many of the interior districts of B.C., heavy yields of alfalfa are almost certain. Under such circumstances there is no good reason why alfalfa cannot be grown in a rotation, and with this point in mind three rotations were started at the Experimental Station, Windermere, B.C., in which alfalfa is left down for two, four and six years before it is ploughed up. Fifteen pounds of inoculated alfalfa are sown with 174 bushels of wheat per acre, and a perfect stand of alfalfa has always been obtained. At no time is the soil allowed to become dry. Where irrigation is not practised seeding should be regulated so that the alfalfa can take full advantage of the rains which experience has shown might be expected. Under such conditions the rate of seeding wheat should be reduced, or in some localities barley is preferable as a nurse crop.

The rotation favoured at present is hoed crop, peas, oats, wheat and alfalfa for six years. Twelve tons of barnyard manure are applied to the hoed crop per acre, and six to wheat and the second and fourth year alfalfa. A very marked increase in yield has been obtained since this rotation was started four years ago, and soil conditions, particularly the humus content, have been

## Local and Personal

Mrs. H. V. Craig left last week for Canadian National for a visit to Vancouver.

Miss Gwen Lowery, of Nelson, B.C., is visiting Mr. and Mrs. R. P. Hughes, for two weeks' holiday.

Mrs. F. Duggan and son Lawrence, of New Westminster, are visiting Mrs. Duggan's parents, Mr. and Mrs. T. F. Craft.

Mr. and Mrs. W. H. Swift, of Athabasca, Alta., are guests at the Mayfair Hotel while enjoying a visit to the district.

Mr. and Mrs. G. W. Simons, of Saskatoon, are guests at the Mayfair Hotel, while on a motoring tour of the district.

Miss M. J. Gore, who had been paying a visit here to her parents, Mr. and Mrs. S. M. Gore, left for Montreal on Monday.

Mr. A. A. Ross, Regional Manager at Vancouver for General Motors Products, Ltd., was a visitor to the city this week.

Mr. and Mrs. A. M. Bush and Miss Dora Bush, of Chilliwack, left on Tuesday, after spending several days here visiting friends.

Mr. R. M. Ray, of the Courier editorial staff, is enjoying a vacation with relatives in Vancouver, for which city he left on Friday.

Mr. and Mrs. Edward Lock and family were here from Winnipeg this week visiting Mr. W. G. Lock and Mr. and Mrs. J. F. Fumerton.

Mr. Philip B. Freeland, Provincial Government Mining Engineer, of Grand Forks, was a guest at the Mayfair Hotel during the week-end.

Dr. and Mrs. A. S. Fumerton and family, of Lethbridge, Alta., are spending two weeks' holidays here as guests of Mr. and Mrs. J. F. Fumerton.

Mrs. Francis C. Buck, of Saskatoon, is visiting her parents, Mr. and Mrs. J. Dayton Williams, who met her at Banff and motored her to Kelowna.

The ancient timekeeper at the Post Office, which has done duty for the past quarter of a century, has been replaced by an up-to-date electric clock.

Mr. F. D. Nicholson, official referee at the lawn tennis tournament, and Mr. George Hudson, of Vancouver, are guests at the Willow Inn this week.

Mr. "Tony" Pooley, of the staff of the Bank of Montreal, who was transferred from Kelowna to Vernon this spring, has had another move to Vancouver.

Mr. and Mrs. J. Johnson and Mr. and Mrs. Belanger, of Creston, B. C., are registered at the Mayfair Hotel. They are enthusiastic in praise of the charms of the City Park.

Miss Foster Newton, who had been visiting her nephew, Mr. W. A. Newton, for a couple of weeks, left on Saturday for England, via Toronto and New York. She was accompanied by her little grand-niece, Rosemary Newton.

Mr. and Mrs. F. J. O'Neill, of San Mateo, California, are visiting Mr. and Mrs. James Patterson, Ethel Street. Mr. O'Neill was a resident of Kelowna sixteen years ago and is surprised and pleased at the many changes and wonderful progress made since then.

Dr. Francis H. Stirling, a cousin of Mr. Grotes Stirling, M.P., and brother of the late Commander T. W. Stirling, died recently at Sproat Lake, Vancouver Island, following a short illness. He was well-known to old-timers in the Okanagan, who regret his passing.

Miss Carrie Swails and Messrs. Warren Swails and Lynn Corkill arrived here on Saturday by motor, and are the guests of Miss Ellen Hardy, Pendoli street. While here they plan a trip to the coast cities via the Cariboo Highway. Miss Hardy will accompany them.

A girl named Etta Sommens, aged only nineteen, who had come to Kelowna on a freight train, was found in an ailing condition on the street this week and was taken to the Hospital, where it was ascertained that her illness was due to poison. Remedial treatment was given and she will recover.

Mr. Gordon W. Haug arrived on Sunday from Mississippi to spend the summer vacation with his parents, Mr. and Mrs. W. Haug, who met him at Sicamous and motored him home. He specializes in entomology and graduated recently as M.S. at the Agricultural and Mechanical College of Mississippi.

Mr. and Mrs. A. E. Day, of Warkworth, Northumberland, England, who had been guests at the Willow Inn for the last three months, left on Friday, with Miss Day, via Kettle Valley, for the Coast. They came to Kelowna to visit their son, Mr. Leslie Harrison, making the trip through the Panama Canal, and are returning by the same route.

Capt. Wm. Leighton, of Vancouver, has succeeded Capt. Steele here at Salvation Army Headquarters. Capt. Steele has been transferred to Prince Rupert. Capt. Leighton is making an appeal for cast-off clothing and particularly men's boots and shoes, for which he receives many requests in the course of a day, and he will be very grateful for any contributions.

Mr. and Mrs. F. C. Corry, of Highland District, Victoria, announce the engagement of their daughter, Kathleen, to Clarence John, son of the late Mr. Frederickson and Mrs. M. Frederickson, of Vancouver. The wedding will take place in Victoria during the last week of July. Mr. C. J. Frederickson is Principal of the Kelowna Public Schools, and Miss Corry was a member of the teaching staff of the Junior High School.

## BOYS HAVE GOOD TIME AT MABEL LAKE

Seventy-Three In Attendance At Annual R. E. C. Camp

Seventy-three boys, browned, bronzed and happy as kings, returned from Mabel Lake R.E.C. camp last Thursday, filled with stories of the wonderful times they had had in a crowded week. It was the unanimous opinion of all that it was the best camp ever held at this beautiful spot. Boys came from as far as Claver and Revelstoke on the one side, and Kelowna on the south. Vernon, Oyanma, Armstrong and Enderby all had substantial groups.

The camp was under the direction of Mr. Bert Fiddes, of Kelowna, who was assisted by Messrs. Edward Lynch, of Vernon, L. O. Brown, of Kelowna, and Roy Mead, of Revelstoke. Lessons in swimming and life saving were given, games and stunts were carried out, also badge work. Bible study and devotional periods in refreshing manner were held each day and were looked forward to by the boys. A great feature in the camp was the chapel, built last year—or rather cleared out among the tall cedars and firs in a beautiful grove. A fine spirit was dominant throughout, and although the numbers were large, the camp was free from any accidents or sickness other than the usual trivial things that occur every day. Each day had its special features, treasure hunt, fishing, hiking, boating or other special activity. Much of the success of the camp goes to Mrs. L. Dilworth and her capable staff, who took excellent care of seventy-three big appetites and satisfied them with delicious dishes.

Keen interest was evident in the tent competition. One tent in particular in charge of two new campers from Vernon sprung a real surprise and gave the old campers, Arthur Lloyd Jones and George Mackay, in charge of the winning tent, a real battle for honours. The tents were unusually well kept and cared for and the standard was higher than yet seen at this favourite spot. Many visitors from all points took advantage of Sunday to visit the camp. Following evacuation of the camp by the boys, the girls took possession over sixty strong, under the capable direction of Mrs. T. F. McWilliams.

In default of payment of the penalties levied upon them at the City Police court, two transients were taken to Kamloops this week under police escort to serve their sentences. Geo. Stewart had been fined \$10 with the alternative of being thirty days' imprisonment, for creating a disturbance at the Government Office, and William Ryan was assessed \$5 or fifteen days, for being drunk.

A signal honour has been conferred upon Mr. F. M. Buckland, Past President of the Rotary Club of Kelowna, his appointment as a member of the Canadian Advisory Committee of Rotary International. The Committee consists of only five members, each of whom represents a large area of Canada. The appointment was made at a meeting of Rotary International held at Vienna last month.

The many friends of Mr. W. de Macedo, M.A., B.Sc., will be delighted to learn that he has just been notified by the Provincial Minister of Agriculture of his appointment as Plant Quarantine and Nursery Stock Inspector, to be stationed permanently at Vancouver, with headquarters at the Court House in that city. He will assume his new duties July 20th. Mr. de Macedo has been instructor in agriculture at the Senior High School for the last three years, and will be greatly missed.

A false alarm roused the town from its slumbers at 3.30 on Friday morning and caused the members of the Brigade to rally at the Fire Hall in vain. The cause has not been ascertained, but it is suspected that the high wind that was blowing at the time was responsible for swinging two wires together and releasing the siren. A second false alarm was sounded the same afternoon, at 1.40, which was traced to workmen accidentally interfering with the wires to the Fire Hall while carrying out some repairs.

Attention is called to an advertisement in this issue by the School Board, notifying prospective students who intend to enter the Senior Matriculation classes in the Kelowna High School that they must register with the Secretary of the Board, Mr. N. D. McTavish, by August 1st. If a sufficient number do not present themselves, the classes will be discontinued in the interests of economy. The Senior Matriculation classes take the place of first year work at the University of B.C., and thus enable parents to keep their children a year longer at home.

The choir boys of St. Michael and All Angels Church are having their week's camp at Joe Rich Valley. They left on Monday morning with the Rector, and will camp at Mr. Nicholas' place. Messrs. T. G. Norris, O. Jennings and E. Hewlett were responsible for their transport, and the Rector wishes to thank the many friends who made this outing possible by contributions in money and kind. The boys will give a concert at Joe Rich this evening. Next week the girls of the choir will have their camp on the same ground, with Mrs. F. Martin and Mrs. C. Hubbard in charge.

The arduous work of laying the new sewer pipe on Water Street was completed on Saturday, crossing under the bed of Mill Creek being accomplished during Friday night. The water had been flumed to permit of the work, and the men laboured underneath the flume until the task was finished. The high water table, quicksand and other troubles have combined to render installation of the pipe supremely difficult, but all obstacles have been overcome by patient, hard work, and City Engineer Blakeborough is to be congratulated upon the successful outcome. Previous to replacement of the old pipe, the sewer system was handling about 60 per cent of drainage water instead of sewage, but the new pipe will obviate the serious leakage and make for much greater efficiency and economy.

## THRILLING DRAMA OF AFRICAN WILDS

Gigantic Film Of "Trader Horn" Was Two Years In Making

The story of Aloysius Horn, famous old African trader, who passed away a few weeks ago in England at a ripe old age, will be presented on the screen at the Empress Theatre on Friday and Saturday of this week, with realism the measure of which may be judged from the fact that the film was two years in the making—and it was made in the heart of the African jungle. The scenarios are no fakes devised on some Hollywood "lot," but are real pictures of the African wilds, into which a Metro-Goldwyn-Mayer troupe of forty-old players, staff officials and technicians penetrated and braved all kinds of hazards of pestilence and wild beasts in order to photograph the story amid its proper surroundings.

The dramatic highlights of the film include the chase of the dread juju priests of the bloodthirsty tribesmen to doom the white traders, the dramatic love story of Horn himself and the wild white girl, kidnapped as a babe and brought up by savages, whom he restores to civilization, yielding her to a younger lover, and thrills innumerable from scenes in which appear the pygmies, who hide in the jungles and fight their enemies with poisoned arrows, charging wild elephants, baboons, warthogs, antelope, crocodiles of huge size, hippopotami and battling lions and leopards. The whole thing is on such a tremendous scale that words fail and the picture must be seen to be appreciated.

"Love In The Rough" Described as a golf comedy, "Love in the Rough," which is the feature for Monday and Tuesday, July 20th and 21st, at the Empress, depicts the amusing situations which ensue when a rich manufacturer takes his crack golfer shipping clerk with him to a smart country club. The clerk is supposed to caddy his employer to success in a championship match, but he uses his wits to achieve no few laurels for himself.

Lawrence Tibbett Sings Lawrence Tibbett, the young baritone who has captured the hearts of music lovers everywhere by the rich, warm quality of his voice, will be heard at the Empress on Wednesday and Thursday, July 22nd and 23rd, in "The Prodigal," a dramatic romance of the South, in which he sings six numbers. One of the scenes presents a picture of a hobo camp under a railway trestle in a river bottom, where Tibbett, together with a male chorus of a hundred voices, sings his famous concert number, "De Glory Road." Again, in the depiction of an old-fashioned negro barbecue, hundreds of negroes join the Metropolitan baritone in the singing of such typical old-time Southern songs as "Chidlin's" and "A Child is Born."

## NEW BLOOD IN TENNIS TOURNAMENT

(Continued from page 1)

## Mixed Doubles

Malahoff, Nelson, and Mrs. C. Taylor, Kelowna, beat Hudson and Miss Derby, Vancouver, 6-3, 6-3; MacDougall, Nelson, and Mrs. Watson, Vernon, beat Yoshi, Vancouver, and Mrs. Bull, Kelowna, 6-4, 6-2; Brown, Vancouver, and Miss O'Shea, Vancouver, beat Stubbs and Mrs. Stubbs, Kelowna, 6-0, 6-2.

## Junior Boys

H. Aitken, Kelowna, bye; C. MacDougall, Nelson, beat G. Mackay, Kelowna, 6-4, 6-4; M. Meikle, Kelowna, beat T. Stubbs, Kelowna, 6-4, 6-0; R. Hayman, Kelowna, bye; R. Craig, Vancouver, beat R. Ford, Mission, 4-6, 6-4, 6-4; T. Romano, Nelson, beat H. Lawson, 6-3, 6-1.

## Men's Consolation

L. Simpson beat R. H. Stubbs, 6-4, 6-4; R. Craig beat M. Meikle, 6-4, 6-4; O. St. P. Aitkens beat G. Hudson, 6-3, 6-3; B. Clark beat H. V. Craig, 6-2, 6-4; V. D. Lewis beat C. W. Walker, 7-5, 6-1.

## QUEEN CONTEST AT KELOWNA REGATTA

Fortunate Young Lady Will Reign At Silver Jubilee Celebration

An outstanding anniversary this year will be Kelowna's Silver Jubilee Regatta on August 12th and 13th. To signalize the twenty-fifth of these history-making events the directors of the Aquatic Association are sponsoring a Queen contest. The girl chosen by popular vote will be duly crowned as Queen of the Regatta. Different local as well as outside organizations are being asked to sponsor queens to compete for this honour.

There will also be a drawing for twenty-one attractive prizes. The grand prize will give the fortunate winner a round trip to Honolulu or a return trip to the 1932 Olympic Games at Los Angeles. For any one not wishing to trust himself to the lure of Hula moons or the seductive swish of grass skirts, there will be a cash surrender value.

The second prize, which perhaps may outvie even the call of the south seas by its popularity, is an electric refrigerator. The third will be a complete chest of silver, worth \$130, and the fourth a chesterfield suite. In addition to these, there will be seventeen merchandise prizes, two of them valued at \$25 each, and ten at \$5 each.

Do not miss the opportunity to win one of these valuable prizes. Further particulars will be given later as to tickets, etc.

Now that the sewer extension work is practically complete, the streets are receiving a much needed share of attention. Water Street, which was badly torn up and its permanent surface destroyed through the need of deep trenching for the sewer pipe, is being resurfaced, and other streets will receive attention in turn, some of them already having had a coat of heavy oil to obviate the dust nuisance, as to which many residents were making bitter complaint.

## Enna Jettick Shoes On Sale \$5.75

Here is your first opportunity to purchase this well known make of shoes at a great saving.

## ENNA JETTICK

are comfortable, made well, of the best material. We can fit you because we have all widths and sizes.

Psychology is where the astute police give out the robbery loss at double the actual figure, thus stirring up suspicion among the assistant thugs that they were short changed.—Detroit News.

Taxi Driver: "My, what a clutch." Voice (from rear seat): "Say, you, keep your eyes on the road. This is none of your business."

After two years of discussion, deliberations, correspondence and interviews, Kamloops is to have an airport.

A movement is under way in Iceland to separate from Danish rule and establish an independent republic.

"I hear you have a propensity for petting." "No, it's a Chevrolet."

## RUTLAND

Miss Jessie Campbell is spending a month's holiday at the home of her parents, Rev. and Mrs. C. A. Campbell. She has also as her guest Miss A. McKenzie, of Vancouver. Both young ladies are nurses in training at the Vancouver General Hospital.

Mr. and Mrs. George Muford have moved into the McKillop house.

The Wolf Cubs, under Assistant Cubmaster Ken Bond, went to Okanagan Centre on Monday for four days camping, taking over the camp from the Girl Guides, who returned home the same day.

The sympathy of all is extended to Mr. and Mrs. J. Sutherland, former residents of Rutland, in their sad loss.

Mr. Gordon Gaddes, of Grenfell, Sask., is visiting Mr. and Mrs. C. Faulkner.

Eight members of the local C.G.I.T. are attending the R.E.C. Camp at Mal Lake.

The annual joint picnic of the United Church Sunday Schools of Rutland, Glenora and Beauvillain was held at Williams Bay, Woods Lake, on Wednesday last. Bathing, races and games provided constant entertainment for the large gathering of children and adults. The weather was ideal for the occasion, a fine clear day making the shade of the trees welcome and the waters of the lake attractive.

The depth of water in the storage reservoir reached its highest level of the season on July 7th, when 17 feet was the recorded mark. With the improvement in the situation, it has been decided to increase the quota to three-quarters of a normal head from the seven-twelfths ration previously allowed.

Clarence ("Nipper") Hall is to be congratulated upon his escape from drowning on Friday last. Latest reports are that he has fairly well recovered from the effects of the trying ordeal.

Mr. F. L. Fitzpatrick returned on Monday from a trip through the three prairie provinces. He reports condi-

tions in Manitoba and Northern Saskatchewan as very fair, and in Alberta good, but in Southern Saskatchewan as very bad indeed. Cherries and soft fruits are selling freely and there is a good demand for early apples and early cabbage. The firm expects to commence carlot shipping immediately.

The annual school meeting was attended by about twenty-five ratepayers and wives of ratepayers. The meeting, held as is customary on a Saturday evening, was presided over by Mr. W. F. Schell, Chairman of the School Board. Mr. Robert Ritchie, Secretary, read the minutes of the last annual meeting and those of a special meeting, both of which were adopted as read.

Election of Trustees resulted in the re-appointment, by acclamation, of Mr. Schell for another three-year term. Mr. A. L. Baldock defeated Mr. A. W. Gray in a ballot for choice of Trustee to serve the two remaining years of the H. LeFargue's uncompleted term.

The Trustees' report showed a credit balance of \$1,300.00 in hand, and the estimates for the year were slightly in excess of \$8,000.00. A seventh teacher will have to be provided and one of the basement rooms in the new school to be fitted up to accommodate the extra class. An enrollment of 270 pupils is anticipated at the first of September.

After some discussion of heating methods to be used in the new room, the estimates were adopted.

Mr. J. H. Coe also touched the question of formation of a new school district on the Upper Belgo and moved a resolution in favour of providing transportation to pupils beyond the 3-mile limit, but failed to get a second, and the matter was dropped.

Mr. and Mrs. Kenneth Robbins, of Calgary, were visitors at the home of Mr. and Mrs. W. McDonald recently, returning to Calgary by auto last week. Mrs. Robbins is a daughter of Mr. and Mrs. Victor Dilworth, who were residents here some fifteen years ago.

The Peachland baseball team played a return game here last Thursday evening, winning out by 10 runs to 9 in an exciting contest. The visitors fielded a stronger team than in the previous game and got away to an early lead, pounding the offerings of Stafford, who got indifferent support, for five runs in the second inning and three more in the third. Each then relieved him on the mound, holding the visitors to an additional two runs. It was not until the sixth that Rutland staged a rally and secured runs enough to make the game interesting. Two Cousins boys did the hurling for Peachland, getting good support until the last two innings. In the final stanza Rutland almost tied the game, having a runner on third when the third man was retired, ending the game. The teams lined up as follows:

PEACHLAND: Williamson, cf.; H. Cousins, 3b.; A. Cousins, p.; 3b.; T. Clements, 1b.; Gummow, lf.; V. Cousins, ss.; J. Clements, c.; Garlinge, rf.; Tocher, 2b.

RUTLAND: McLeod, 2b.; A. Kitch, 1b.; Baerg, cf.; F. Kitch, c.; Stafford, p.; lf.; Bach, lf.; Ritchey, rf.; L. Graf, 3b.; R. Kitch, ss. Spare, P. Graf, ss.

Score by innings:—

Peachland ..... 0 5 3 0 1 1—10

Rutland ..... 1 0 0 0 5 3—9

Umpire: Bach.

## RETURN OF CHRIST IS NEAR AT HAND

So Declares Evangelist Erntson In Stirring Discourse

(Contributed)

"The voices of those who think they see a way out of the startling and unsettled developments in the earth have been well nigh drowned in the terrified clamour of the great majority who know not which way to turn for relief from their harrowing anxiety over the calamities and turmoils of the tremendous upheavals that are now taking place in our world," declared Evangelist N. C. Erntson in a stirring discourse last Sunday night on "The Next World War; On Which Side Will You Fight?"

A universal change is coming in the present conditions in the world when Christ returns, and that His return is near at hand is evident from the following remarkable predictions in the Bible, as presented by Mr. Erntson during the week.

1. Destructive war among nations, attended by famine and pestilence. (See Luke 21:10, 11.)

2. Great industrial conflicts between employers and their labourers. (See James 5:1-5.)

3. General moral degeneracy throughout the world. (See Luke 17:26.)

4. Serious spiritual decadence resulting in empty form without a reality in the life of professors of godliness. (See 2 Tim. 3:1-5.)

5. Troubles and perils throughout the world such as were never known before, bringing distress and perplexity upon nations, causing men's hearts to fail for fear and for looking after those things that are coming upon the earth. (See Luke 21:25, 26; Daniel 12:1.)

6. "The world-wide proclamation of the gospel as the sure remedy for this situation. (See Matt. 24:14; Rev. 14:6-14.)

Ever since the signing of the Armistice there has been in progress the greatest movement to establish a lasting peace ever set on foot by men. Yet there is no real peace, and bloodshed has continued in the world. Veteran correspondents of the most reliable character tell us that we are facing the gravest situation imaginable.

But war, as terrible as it is, is only a part of the evil that befalls men as the end approaches. Wars are attended by famine and pestilences. This is a plain and positive prediction of our Lord. Since the great World War closed, millions of our helpless fellow beings have perished from starvation and pestilences.

Great industrial conflicts between employers and employees were to constitute one of the serious and dangerous conditions in the end of the world. The prediction is given in these words: "Come now, ye rich, weep and howl for your miseries that are coming upon you."

The annual meeting of the East Kelowna School District was held on Saturday, 11th July. Col. Moodie was voted to the chair and Mr. A. B. Woodd acted as secretary of the meeting.

The report of the School Board showed a very satisfactory state of

## TWENTY YEARS AGO

(From the files of "The Kelowna Courier")

Thursday, July 13, 1911

"The receipts at the Fruit Festival of the Ladies Hospital Aid amounted to \$87.65."

"The Kelowna intermediate lacrosse team played a return match here on Thursday last with the Penticton team, and inflicted a severe defeat on them than on Dominion Day, the score being 7-2 in favour of Kelowna."

"The municipal meeting called for Thursday evening to discuss the By-Laws to be voted on the following day proved to be a fiasco, as only half-a-dozen people turned up and, after waiting for about three-quarters of an hour in the hope that there would be some belated arrivals, the members of the Council who had come prepared to explain the purpose of the By-Laws he took themselves homewards."

"The preliminary survey of the Kettle Valley Railway has been finished to the South Kelowna Land Co.'s dam, and the party engaged in the work are now retracing their steps towards Penticton and making the final location. It is not considered probable that any active construction work will be carried on in this neighbourhood until next spring. The location obtained is regarded as very satisfactory to Mr. Gourlay, the engineer in charge, as it eliminates the costly tunnels and bridges entailed by the survey made last winter at a lower altitude. The work from the South Kelowna dam to the Kettle River is being actively carried on by another party, and it is hoped to have all the line finally located before the end of the autumn. So far as this district is concerned, the final location of the Kettle Valley Railway puts the line, when constructed, entirely out of reach, owing to the high altitude at which it traverses the Mission Range."

Only 55 votes were polled on three loan By-Laws submitted to the ratepayers on July 7th for approval. All of them carried as follows: No. 90, to borrow \$4,000 for opening new streets; for 39, against 16. No. 91, to borrow \$3,000 for waterworks extension; for 45, against 10. No. 92, to borrow \$3,000 for purchase of road making machinery; for 37, against 18.

The tax rate for 1911 was set by the City Council at 23 1/2 mills.

The total rainfall for the month of June, 1911, was 1.56 inches, rain falling on ten days. For June, 1931, it was 1.42 inches, rain falling on nine days. Moist Junes in the Okanagan Valley thus seem to recur in a cycle of years.

you. Your riches are corrupted, and your garments are moth-eaten. Your gold and your silver are rusted; and their rust shall be a testimony against you, and shall eat your flesh as fire. You have laid up treasure in the last days. Behold the hire of your labourers who mowed your fields, which is of you kept back by fraud, crieth out: of you cry the cries of them that reaped have entered into the ears of the Lord of Sabaoth. Ye have lived delicately on the earth and taken your pleasure; ye have nourished your hearts in a day of slaughter." James 5:1, A.R.V.

Who does not see today this prediction in process of fulfillment? The industrial conflict is world-wide. It has come to be one of the world's most bewildering problems. Mr. Herbert Hoover is credited with the statement that "the whole world is groping for the solution of the labour problem." If we cannot solve it progressively, our civilization will go back to chaos.

One of the editors of a great daily paper makes bold to draw the curtain aside that his readers may see the appalling moral degeneracy into which the world has plunged. He says: "However calloused one may have become to human suffering, he cannot fail to be impressed by the increasing volume of frightful crimes of violence which are sweeping over the country like a strange mental malady. They are startling alike in their number and variety. . . . There seems to be an irrepressible mania for shedding blood and experimenting with vice and the illicit. The laws of God and man are alike helpless to prevent this saturnalia of crime. A whole generation is seeing red."

And even now while wars, famines, pestilences, industrial strife, and moral degeneracy are devastating fair lands, overturning governments and plunging the human family into distress, perplexity, and anguish of mind and heart, the gospel of salvation and hope is being carried by men and women who have been redeemed to the uttermost parts of the earth. In every land, among all nations and tribes, it finds a response in the hearts of men and women who want the help they plainly see cannot be given them by the world. This gospel is the sole hope of the world in its present chaotic, helpless condition. "The one great vital question for all men to consider is the preparation they should make for the end. When that day comes, the world's Redeemer and King will take this sin-cursed, storm-tossed, God-stained world under His own control for its full and complete reconstruction. This present world with all its sin and misery will pass away. Every trace of sin and its blighting effects will be removed. All things will be made new. And this earth, thus restored to its Eden beauty, will be made the glad home and the glorious kingdom of those who have accepted the Son of God as their Saviour and King. Here the redeemed shall abide in the fullness of joy."

### THE RIFLE

#### Heavy Rain Cuts Down Scores In Team Competition

There was a good turn-out of riflemen to the first of the four fortnightly team competitions for medals and prizes, held on Sunday at the Glenmore rifle range, the attendance numbering twenty-four, including a contingent from Westbank. Unfortunately, the conditions proved far from comfortable, the 200 yards distance being shot in a heavy downpour of rain, which seemed to land the marksmen into all sorts of difficulties with elevation. The light was steady and there was very little wind, but old hands and beginners alike found it difficult to keep in the neighbourhood of the bull and outers and magpies abounded.

The scoring showed a most surprising drop from that of previous shoots, none of the competitors reaching 300 with their seven scoring shots at 200 yards. Jack Conway was high man with 28. He added 27 at 500 and headed the aggregate with 55. At 500, B. Chichester put on a nice 32, which, with 21 at 200, gave him an aggregate of 53 and second place.

As firing progressed at the longer distance conditions began to improve considerably, the rain falling off to a light drizzle, and the scoring showed corresponding betterment, but the early squads had no better luck than at the 200. Use of the short Lee-Enfield was obligatory, under the D.C.R.A. rules governing the competition, and it may be that the lack of a cover for the foresight, such as the Ross possesses, may have been the chief cause of the trouble, owing to rain-drops collecting on the sight.

Five teams competed, but their personnel, as listed in advance, was not complete, and it was necessary to make substitutions or strike high-low averages to compensate for the missing men. Jack Conway's team led on the final analysis by a margin of 23 points over Bob Haldane's squad, which in turn had a lead of 16 over George Kennedy's crew. The scores follow, the totals at 200 and 500 yards respectively being shown after each man's name:

J. Conway (Capt.), 28, 27—55; B. Chichester, 21, 32—53; C. Hawes, 26, 24—50; H. Brown, 22, 27—49; J. Vint, 16, 30—46. Total: 253.  
R. Haug, 22, 25—47; W. Barnes, 24, 23—47; R. Haldane (Capt.), 19, 27—46; G. Rose, 20, 24—44; high-low average, 46. Total: 230.  
G. Kennedy (Capt.), 223, 29—52; D. Addy, 21, 24—45; F. Pridham, 23, 18—41; J. Martin, 18, 22—40; G. Hammond, 16, 20—36. Total: 214.  
A. Davidson (Capt.), 20, 29—49; A. Rankin, 25, 20—45; W. Harvey, 16, 25—41; J. Paynter, 18, 23—41; H. McCall, 15, 22—37; H. Paynter, 2, 27—29; high-low average, 39. Total: 194.  
Not squadded: J. Whittingham, 12, 10—22.

The next team shoot is scheduled for July 26th.

### SOFTBALL

#### Championship Won By Intermediate A

Playing before a big gallery, Intermediate A in no uncertain manner asserted themselves as champions of the softball circuit when they decisively defeated Glenmore 25-9, at the Recreation Park Tuesday evening. From the start it was evident that Glenmore were not playing up to standard. Early in the game costly errors allowed men to get on bases and then home. Time and time again men of the hoop squad should have been out, but fumbled fielding gave them transportation around the diamond. Reid and Snowsell changed frequently in the box but could not stop the hard hitting Intermediates. Several home runs were accounted for, including one special one by C. McMillan. Johnstone and Hill were the batteries for the basketekers. The game was interesting, if one-sided. Glenmore are not playing the standard of ball they did earlier in the season, while the Intermediates A squad have been consistently strong, although Glenmore managed to win the second game of the final series from the Intermediates on the previous Friday evening.

The Friday battle was closely fought, although the basketekers took an early lead and held it until the sixth inning, when Glenmore went on a scoring spree that brought them several runs and put the game in a very interesting position. With the Glenmorites piling up a lead of four runs and shutting out the Intermediates until the beginning of the ninth, the hoop men lost their last chance to redeem the game by scoring only two runs in the final spasm, which left Glenmore on top by 10-8.

### FOOTBALL

#### Kelowna Defeats Kamloops In First Round Of Robertson Cup

Kelowna soccer players and fans are rejoicing in the winning of the first round of the Robertson Cup series, which is the big soccer event of the season. On Sunday Kelowna had as their guests Kamloops leather chasers and took them into camp by a score of 4-1. The weather fortunately cleared and the grounds were in excellent shape.

Kamloops won the toss and elected to defend the south end. Kamloops took the attack from the kick-off but Adams cleared. Kelowna took the offensive and some fine combination resulted from the right wing, McFarlane being outstanding. Kamloops was awarded a corner kick, which was converted, giving the visitors a one goal lead. Lewis in goal made a good attempt to clear but the ball cupped under the bar. Kelowna, aroused by the reverse, resumed the attack and a nice piece of work afforded McFarlane the opportunity and he gave the goal keeper no chance. Adams miskicked but the danger was averted. Almost immediately he scored from a free kick. Smith lobbed one into the goal-keeper's hands but it was cleared. Fisher had a deadly shot luckily stopped by a back. Half time score, Kelowna, 2; Kamloops, 1. Kelowna were lucky to have a lead, although they had more of the game than Kamloops, yet play had been very even.

Kelowna opened the second half, taking the aggressive. Occasionally Kamloops attacked but the Kelowna defence were equal to the occasion. Failure by the Kelowna forwards to take advantage of opportunities missed many chances. The crowd clamoured for more goals and McFarlane, who had been playing an excellent game, obliged. A little later Langstaff presented Rowley with a nice pass which he netted from close in. Kelowna were now top dog, while Kamloops were disorganized. No further scoring took place.

The game was one of the best of the season and was thoroughly enjoyed by the crowd. This gives Kelowna a good lead for the return game on Monday next.

**Cars Wanted For Kamloops Trip**  
If there are any supporters who can help in the transportation of soccer players to Kamloops on Monday next, their assistance will be greatly appreciated. Any who can so help should communicate by Saturday with C. Walker, the secretary, phone 474. Kelowna has a fine opportunity to bring back the Robertson Cup which for many years has been wandering in strange lands. The return game should be well worth seeing.

### CRICKET

#### Kelowna Wins Spencer Cup Fixture

An interesting game of cricket took place at Lavington on Sunday, when the Kelowna team were victorious by 189 runs to 106. The feature of the game was the batting of Dunlop, who, by free hitting all round the wicket, accounted for 64 before being retired. Percival, for Lavington, gave them a fine lead with 36, but they could not reach Kelowna's score.

This game was one of the Spencer Cup series. A game will be played Sunday between Occidental and City.

#### HERE IS A NEW LAKE FOR ANGLERS

Arthur Lake, Near Falkland, Is Home Of Large And Hungry Trout

Fishermen ever on the quest for new waters in which to cast a fly should be grateful to a body of local sportsmen who have discovered and with commendable energy have opened up an additional angling resort at Arthur Lake, some fifty miles from Kelowna, in the Falkland district. This lake is said to be a regular fisherman's paradise and already several splendid catches have been secured. The basket obtained by Jack Cummings, on display at a local sports goods store, gave evidence louder than words of the fine condition and size of the fish.

Cabin accommodation and eight fine rowing boats have been provided for the convenience of the public. For those who may have traversed the road before and remember a stiff climb, it should be stated that a new road has been cut in, which eliminates entirely the bad features of the old one. Visitors should leave the Kamloops-Vernon road at Salmon River and go to Haskin's corner, which is two miles from the main road. Thence there is a good auto road to Yankee Flats, and from the latter a three-mile pack horse or walking trail into Arthur Lake. Horses are available, and the sight that meets the eye and the sport that results are both well worth the little effort. The lake lies some 5,500 feet above sea level. The average fish has turned the scales at 5½ lbs., while the largest taken on the fly this year weighed 18½ lbs. Jack Cummings pulled out nine, which averaged 5½ lbs.

For those who delight in taking them in as fast as they can cast their line there is another lake, Bolean, about a mile and a half distant, where any fly fisherman worthy of the name can get his limit in double quick time. The fish in this lake are smaller and run from one to four pounds.

A local syndicate is sponsoring Arthur Lake, with a view to supplying the demands of local sportsmen. The public are cordially invited to cast their lines and try their luck, even on these hot days.

A party from Okanagan Mission got their limit at Chute Lake over the week-end.

J. Vint, L. Mount, Jack Ward, J. B. Rankin and Abe Rankin also obtained their limit at Speck Lake. The fish averaged 2½ pounds.

Beaver Lake was in prolific mood during the past week. Dr. Day and party got five nice ones there, while Roy Haug captured the largest fish on a spinner. It weighed 12 lbs. Dan Hill, Axel Sanberg and Jack Kennedy took 45 lbs. of trout from the lake on Tuesday, the largest weighing 10¾ lbs. Fly was used. Another party took their limit of 50 lbs. from Crooked Lake.

Tom McQueen, Westbank guide, has returned from blazing a trail to Ray-

### SHIPPERS HOLD BUSINESS SESSION

(Continued from page 1.)

mediate attention without the necessity of calling a full meeting of shippers.

#### Cherries

The cherry situation was brought up and the consensus of opinion was that the deal was finished. There will be a small movement of Lamberts, quite a few Windors for the balance of this week and the early part of next, and that will close up the deal. Sour cherries are moving very nicely.

#### Apricots

Regarding apricots, the prices arrived at last week are meeting with the approval of the trade and it was decided there was no change necessary. A considerable discussion took place regarding pink spots and hail marks on apricots, and the Secretary was instructed to get in touch with the Government Inspection Department to have latitude given on permission to pack pink spot in No. 4s and hail marks in No. 2s. This was the unanimous feeling of the meeting, as many of the apricots showing pink spots are now culls when in reality there is no harm done to the cots.

#### Prices For Early Plums

Values arrived at on Peach Plums and other early plums are as follows: No. 1, \$1.25; No. 2, \$1.00; all packed in 4-basket crates.

The Price Committee was instructed to handle cucumbers, tomatoes, celery, head lettuce and any other vegetables on which there is a fluctuation of prices from day to day, and keep all of the members advised.

#### Early Apples Are \$1.50

Early apples are moving out nicely at a price of \$1.50 and this price remains until further notice.

#### Advertising Apples In U. K.

A general discussion took place regarding advertising in the United Kingdom on Canadian apples, and inasmuch as the Canadian Government is willing to put up \$20,000.00 if the apple producing provinces will raise a like amount, and in view of the fact that British Columbia's share is \$4,000.00, a resolution was passed that all shippers present sign an agreement to donate their share, and all shippers not present be circulated, and it was felt sure that the \$4,000.00 necessary for British Columbia's quota will be raised without any trouble. A committee was appointed to handle this and the matter is under way.

#### Paper Prices Too High

The price of paper was generally discussed and it was felt that the prices now asked by the Coast mills are too high, and a resolution was passed requesting that the Coast mills seriously consider a general reduction in the price of oiled and plain paper without delay.

#### "Rollers"

A discussion regarding rollers was placed in the hands of the Committee and rulings on same are to be brought in at the next meeting. It was felt that some drastic rulings must be made in order to keep rollers and consigned cars from moving this year, and every shipper present was heartily in approval of this move.

#### Bulletins Of American Crop Movements

Arrangements have been made with the Department of Agriculture at Spokane whereby each member of the Shippers' Council is to receive daily bulletins from Spokane covering American movement. This is very useful information indeed and these circulars will be mailed daily to all members of the Shippers' Council.

**Frank Discussion Of Irregularities**  
Considerable discussion took place regarding irregularities creeping into the deal, and it was felt that frank and open discussion of any cases could well be brought forward at each meeting. As a result, a query was brought forward with reference to one shipper's cherries being sold at a low price in Edmonton. The shipper in question, however, convinced the meeting that he was, in every case, getting full price for all shipments (i.e., shipping point), and the consensus of the meeting was, after a general discussion of the whole thing, that the retail stores in Edmonton, who were specializing in these cherries, were putting them out at a low price as specials. This was no fault of the shipper and something over which he had no control.

#### Export Bookings

Export bookings were freely discussed and at present prices on Jonathans some business was being booked and it was felt that this price was low enough at the present time.

#### Sizes Of Apples

Considerable discussion on the sizes of apples and the packing of Cee grade for export took place, and the meeting passed a resolution that nothing smaller than 180s on Cee grade export would be packed on the following varieties, except on firm orders: McIntosh, Rome Beauty, Stayman Winesap and Grimes Golden.

A minimum for Household was also fixed by the meeting. A minimum of 2½ inches on all Household, starting with Duchess, was agreed on, with the following exceptions, on which the minimum was to be 2¼ inches for Household. The exceptions are Snow, Scarlet Pippin, Russet, Tolman Sweet, Winesap, Wismer's Dessert, Jefferies and Jonathan.

The next regular meeting of the mer Lake, having caught his limit every day on the fly. They ran from 2½ to 3 lbs. in weight. He states that the lake is far above average, and for the fisherman who wants real sport this is a good spot.

Mrs. Bryan Williams wins the Spurrier prize for the largest fish taken on the fly. She drew a 12-pounder from Adams Lake.

Little Tim Gurney is the proudest small fellow in Kelowna. He caught a lovely mess of trout, and it was on show at Spurrier's. You should have seen him smile when Joe gave him a special prize. He is only seven and a half years old.

Fishing is improving as the water recedes.

### RECORD SESSION DUE TO REBEL LABOURITES

LONDON, July 16.—A handful of rebel Labourites in the House of Commons made parliamentary history last night and this morning by keeping the House in session for 19½ hours, one of the longest sittings it has ever had. They were attacking the "anomalies" bill which would make changes in unemployment insurance practice, and for a time it looked as though they might tire out the House and force an adjournment, but Margaret Bondfield made them stick until they had finished putting the bill through the committee stages. At ten this morning the House adjourned after having been in session since 2.45 yesterday afternoon. The left wingers offered a long series of amendments which would virtually have destroyed the bill, but they never could muster more than thirty votes, and the rest of the Labour party, the Conservatives and Liberals were solidly against them.

## BOY!—WHAT A TROUT!

YES, you do get the surprise of your life. FIGHT? You bet you must!

**THRILLS?** Any one of these double-big, high-powered, north country speckled fellows can give you more excitement in a minute than you'd get in a lifetime of ordinary fishing. They are the real native Canadian wild-water, chain-lightning breed.

**PLENTY OF THEM!**—Big, wild and beautiful. Wonderful, too, to hang up as trophies of your own.

**NOW, whatever you are looking for in REAL fishing, let us know in details. Our Fishing Scouts keep us constantly posted. Just ask us and we will tip you off on how and where to go for real "he" trout.**

## MisSimplicity

makes your clothes fit like a Paris Mannequin's!

Leading dressmakers everywhere say, "It's no trick to achieve smart lines, when the frock is fitted over a correct moulding foundation." MisSimplicity, designed by Gossard, skilfully moulds the figure to slim curves. The diagonal "cross-pull" of the waistline straps flattens the diaphragm and abdomen, uplifts the bust, slenderizes the waistline and holds the figure to correct posture. Side panels of pliant elastic taper the hips to perfection.

**LA MARVA**—A new wrap-around garment, ideal for summer wear; price **\$2.50**

**No. 1614, NATURE'S RIVAL**—A new girle brassiere, a lovely garment in white only, Swammy top, with brocade skirt; lovely and cool for summer dresses; price **\$3.25**

**FULFILLS A LONG-FELT CUSTOMER WANT**

The new feminine styles demand an absolutely flat diaphragm and abdomen with a youthfully curved bust. The full-figured type of woman found it very difficult to wear the new clothes until Gossard's clever designers created MisSimplicity. Now women, everywhere, are demanding this slenderizing garment. The diagonal cross-pull of the adjustable waistline straps does the slimming trick.
